

ONE MAY DIE FOLLOWING AUTO CRASH
Four More Hurt as Result of Week-End Collision and Other Accidents

University of California at Los Angeles, Los Angeles, Oct. 29. (AP)—A fatal crash of a car in Los Angeles today resulted in the death of a young man and injured four others. The car, a 1927 Ford, was driven by a young man who was killed. The other four were injured and are in the hospital.

Will Rogers Remarks:
NEW YORK, Oct. 29. (AP)—[To the Editor of The Times:] Smith is broad-casting tonight from Baltimore through WJZ; Hoover is broad-casting tonight from Washington through Senator's office. Of all the "dumb" things that candidates bring up to try to influence people how to vote I think "prosperity" takes the cake. How a speaker can convince a man that he is prosperous when he is doing well without having some total stranger tell him then this government shouldn't be in the hands of the people. We might as well have candidates argue with us that we have a pain in our stomachs.

SEVEN NEW ASTEROIDS DISCOVERED
Observatory Near Paris Finds Tiny Planets That Await Verification

(Overlaid, 1928, by New York Times)
PARIS, Oct. 29. (Exclusive)—M. Delporte of the Royal Meteorological Institute at Uccle, near here, announces the discovery of seven new small planets.

RAF ZEPPELIN SPEEDED HOMEWARD BY MAD GALE
Huge Bag Seen Over Newfoundland; Hurricane Chases Ship to Sea; Dirigible's Radio Silent

NEW YORK, Oct. 29. (AP)—The huge dirigible Graf Zeppelin, homeward bound for Germany, sped onward over the North Atlantic last night with a howling gale behind her. The ship's last radio message was received at 1:54 a.m. yesterday at Lakehurst, N. J., and reports about twelve hours later said its twenty-one passengers had their last glimpse of the American continent over Newfoundland.

HUSBANDS' CONGRESS PROPOSED
Viennese Would Organize World League to Rectify Woes of Males

NEW YORK, Oct. 29. (Exclusive)—An international congress for wronged husbands will take place in Vienna in January, according to an announcement by Herr Heberich, president of the Viennese League for the Rights of Man.

Journalist Tour Benefits Cited
OAKLAND, Oct. 29. (AP)—The visit of the fourteen British journalists, now touring the United States, will be of great value in cementing Anglo-American relations, Joseph H. Knowland, Oakland editor, told members of the party at a luncheon here today.

Charles Carpy of Bay City Dies
SANTA ROSA, Oct. 29. (AP)—Charles Carpy, founder of the California Wine Association, banker, and leader of San Francisco French colony, died suddenly today at his home near St. Helena. He was 78 years of age.

Science Pens New Genesis
Mankind and This Planet Set Apart as Unique in Latest Work on Birth of World

CHICAGO, Oct. 29. (Exclusive)—Mankind becomes more lonely and exalted in the light of new scientific research and deduction. As science writes its Genesis more assuredly, it is returning toward the belief of Hebrew Genesis. Man really appears to be as unique in the great Einsteinian universe of 100,000,000 light years radius as he was pictured upon the little flat earth of the Moslem scribes and editors.

MELLON TALKS IN WASHINGTON

Cabinet Member Asks Why Change Able Rule

Progress Record of Two Parties Compared

Peril of Immigration Policy Change Pointed Out

(Continued from First Page)

that of trade and commerce, or to break down values and threaten stability, or any policy that places the government in competition with private enterprise, immediately results in impairing confidence and curtailing business progress and ultimately must have an adverse effect upon the development of the country and the welfare and prosperity of its people.

DEBT REDUCED

"The policies of the present administration have been in line with these general principles. Under a balanced program of debt reduction and tax reduction, the debt has been reduced by more than \$6,000,000,000 and expenditures and taxes have each been cut by more than \$5,000,000,000 a day. The administration has taken the necessary steps to safeguard industry and labor by sound tariff and immigration legislation. It has encouraged and promoted foreign trade; it has pursued a consistent foreign policy, supported at home and abroad, and it has helped in the stabilization of foreign currencies and has thereby made sure that, in the change and flux of post-war conditions, the gold standard of value shall be restored and continued unimpaired.

"By all these measures the administration has helped to build up and maintain prosperity."

The Secretary described the maintenance of a protective tariff upon imports, the restriction of immigration, the careful handling of credit and the encouragement of individual enterprise as among principles traditionally and modernly held forward by the Republican party.

LOOK BACK ON RECORDS

"If any one will look back upon the position of the two parties upon vital political issues which have arisen in the past and have had to be determined by legislation or in the administration of government, the Republican party has, in general, been the constructive party, whose policies have tended to build up and to promote stability. Secretary Mellon said, "while the Democratic party has not infrequently championed measures which, if enacted, into law would have the opposite effect. . . . It was true, and it is true now, of the historic position of the Democratic party on the tariff. . . . The platform of that party calls for duties that will permit effective competition. This must mean, if it means anything, that duties shall be low enough to expose American goods in our home markets to the competition of foreign products on a large scale. But we are told that the Democratic candidate favors a protective tariff. Certainly up to this year his record in public capacity on the subject would not so indicate, but quite the contrary. In his acceptance speech he referred to the Underwood tariff

DISTRESSED BUT DISTINGUISHED

Zeppelin Sails Away and Leaves San Bernardino Man Behind

SAN BERNARDINO, Oct. 28. (AP)—The distinction of being the first man to miss a Zeppelin, remains for Richard Burke, millionaire sportsman and air enthusiast, to claim.

In the face of his failure to reach Lakshurst, N. J., in time to sail on the German dirigible on which he had reservations, Burke was informed last week that his name was on the passenger list of the air liner for the return trip to Germany, on Saturday, he hopped off from Big Bear Lake near here in a plane piloted by Bert Fahy of Los Angeles, in the hope of getting to the Atlantic seaboard in time to catch the Zeppelin for Europe.

Misfortune, however, kept him from making connections. Burke was informed last week that his name was on the passenger list of the air liner for the return trip to Germany, on Saturday, he hopped off from Big Bear Lake near here in a plane piloted by Bert Fahy of Los Angeles, in the hope of getting to the Atlantic seaboard in time to catch the Zeppelin for Europe.

ON WATER POWER

On water power, the Governor said he is satisfied the old order of things can be changed. He said that the development of a "forward-looking, progressive attitude" by the government toward the development of the nation's water power resources was the old order of things. He argued, these resources would fall into private hands for private profit.

The Governor said only last Saturday night Senator Norris, who he described as a Republican, but uncompromisingly progressive, told the American people that the language he is unable to support Hoover.

"Prominent among his reasons was Mr. Hoover's attitude toward the tariff commission of public power resources," the Governor said. "I want to take this opportunity to assure the American people that he will not be reviewed and not any subordinate board or commission."

TARIFF STAND STABLE

"The Republican party has never deviated from its historic attitude on this subject. Our tariff policy has been largely responsible for the development of manufacturing in this country. Our tariff policy and our immigration policy have brought to this country the highest real wages in its history. We have found that, by the use of labor-saving machinery and by manufacturing in quantity, we can increase the productive capacity per capita of labor and also eliminate waste. In this way we can pay high wages and still reduce costs so that the finished products are priced low enough to stimulate further consumption. High wages, in turn, have raised the country's purchasing power, and, as a result, we have today a domestic market of more than 115,000,000 people of great consuming capacity. In this respect, our industrial power of America. Here also lies the power of American agriculture."

Secretary Mellon declared it to be a matter of vital concern both to the farmer and the country that some way be found of increasing the effective profit from farming operations for the producer, without making prices so high as to cut down consumption. A Hoover administration, he asserted, would find a way of working out a solution for the present agricultural difficulty.

SMITH REVEALS HIS ANIMOSITY

Anti-Saloon League Draws Fire at Baltimore

Nominee Declares He Wants No Ku Klux Votes

Foreign Policies of G.O.P. Leaders Assailed

(Continued from First Page)

that statement a belief that the American people no longer will "tolerate interference" with the language of South American republics.

"I am prepared to make a real endeavor to make the outlook of the American people more favorable by removing its causes and to substitute the methods of conciliation, conference, arbitration and judicial determination over the disputes of nations."

He said that under Herbert Hoover, his rival for the Presidency, there would be but little hope for a "forward-looking foreign policy" as the language of South American republics.

On water power, the Governor said he is satisfied the old order of things can be changed. He said that the development of a "forward-looking, progressive attitude" by the government toward the development of the nation's water power resources was the old order of things. He argued, these resources would fall into private hands for private profit.

The Governor said only last Saturday night Senator Norris, who he described as a Republican, but uncompromisingly progressive, told the American people that the language he is unable to support Hoover.

PROHIBITION ISSUE

The Governor contended that Charles E. Hughes has done nothing for prohibition. He said the Republicans eight years ago pleaded the necessity of a "dry" policy. "Let us get away from wiggles and wobbles," he added. "In no similar period in the nation's history has there been so much wiggling and wobbling."

The chief spokesmen of the Republican party are wobbling all over the prohibition question, with the exception of Charles E. Hughes. He said Senator Borah holds prohibition to be the "overriding" issue; that Hughes has referred to it as a "chain battle" and Hoover has insisted that it is a "noble experiment."

The Democratic nominee declared that the word went out that Norris intended to support him. The Anti-Saloon League issued a warning to the voters.

The Anti-Saloon League has always supported Norris in the past, but if he makes this speech, he will be making a "chain battle" and Hoover has insisted that it is a "noble experiment."

CALLS IT THREAT

"That is a threat," the Governor declared. "That is a cold-blooded threat."

The Governor said he had read in a New Jersey paper a notice of a public meeting under Klan auspices and declared the article stated the meeting would be in conjunction with the National Republican Committee. He added that local Republican leaders had disclaimed knowledge of it, but that one of the Klan's statements, when asked if Republican National Committee plans were submitted to him for approval.

"They are supposed to be," the Governor quoted him as saying, "but they have gotten us in trouble before; once or twice in this religious question. I know absolutely nothing about this meeting."

He referred to sighting a burning cross by the side of the railroad as he returned from his last western tour.

"That they (the Klan) are supporting the Republican party in this campaign there can be no question," the Governor declared. Regarding the tariff, Gov. Smith contended the position taken by himself and Democratic candidates for the House and Senate is "no constructive, so forward-looking, so well designed to protecting the wages of the worker, both of big and little business, the farmer and improving the prosperity of the country generally that the Republican party in a moment of panic is forced—through one of its spokesmen—to the reactionary idea that the tariff cannot be taken out of politics."

The Governor took as the text of his address a quotation from his acceptance speech that "Government Should Be Progressive, Not Reactionary," and repeatedly referred back to his statement. "I will take the oath of office as President of the United States," he concluded, "with absolutely no obligations except to devote myself to the best interests of the country and to promote the prosperity, welfare and happiness of all the people."

After the speech, Gov. Smith left the hall to prepare for a night ride.

Oregon Butchers Offering Wild Equine Steak for Sale Cheap

PORTLAND (Or.) Oct. 28. (AP)—Wild horse meat, which hitherto has found a ready market in Europe, is being sold at a public market here at a price a little less than half of that asked for beef.

Wild horses are brought from the open spaces of Eastern Oregon, Washington and parts of Idaho and Montana in carload lots to be slaughtered.

MRS. SMITH AND MRS. WILSON HONORED

BALTIMORE, Oct. 28. (AP)—With Mrs. Woodrow Wilson, wife of the late Democratic President, Mrs. Arthur H. Hays Sulzberger, wife of the publisher of the New York Times, and Mrs. J. Edgar Hoover, wife of the director of the Federal Bureau of Investigation, were guests of honor at a luncheon given here today by Democratic women of Maryland.

As the wives of the two standard bearers of Democracy rose from their places of honor to be photographed by the hundreds of photographers who were gathered at the luncheon, Mrs. Sulzberger and Mrs. Hoover were applauded.

Mrs. Elizabeth R. Menefee, national committee woman from Maryland, headed the delegation of Baltimore women who met Mrs. Smith and her daughter at the station when they came from the Claymont (Del.) home of John J. Harbo.

SCIENCE PENS NEW GENESIS

(Continued from First Page)

Arthur Stanley Eddington, professor of astronomy at Cambridge, great interpreter of Einstein's and his cosmic theory in the October number of Nature magazine.

The virtual coincidence of Prof. Eddington's article and Dr. Chamberlain's book illustrates the present trend of cosmic speculation. "I feel inclined to assert that at the present time our race is supreme; and not one of the professions of stars in their myriad clusters looks down upon scenes comparable to those which are passing beneath the rays of the sun," says Prof. Eddington after discussing the improbability of conscious life anywhere else in the universe—the bounds of which the Einstein theory now has indicated.

After a quarter of a century the highest scientific authority now appears to confirm the theory of Alfred Russel Wallace—co-discoverer with Darwin of the principle of natural selection, who in his old age wrote: "The world is a lonely but lovely place, the entire universe—nowhere the mammalian king of a minor planet, attached to a one-horse star."

In his new book Dr. Chamberlain develops in greater detail the theory of the origin of the solar system, worked out by himself and Dr. Forster Ray Moulton and accounts for many of the oddities of our heavens. His first point on sun gave birth to its planets and to comets in different fashion. The comets and other small wandering bodies were not born through the agency of any planet, but were ejected by the internal forces of the sun and their heavenly travels were determined by a combination of forces including the gravitational pull of other distant stars, and the repulsions of light radiation.

RAY'S OF LIGHT BECOME MUSIC

(Continued from First Page)

decent lamp, the light from which is focused on the mirror. The mirror, quivering in tune with the electric current, focuses the light on the light collecting mirror or lens of the receiving apparatus. It was explained, "At this point another transformation must take place; the light must be converted into sound. The mirror or lens condenses the light on the photo-electric tube, which responds instantaneously to every variation in light intensity. The photo-electric tube translates the light into electric energy and this, after amplification, is transmitted to the loud-speaker where the final transformation of the energy into sound occurs."

Mr. Taylor held a lighted match in front of the receiving instrument and produced a roaring sound not unlike thunder. The lights turned on in the room resulted in a steady hum, while the light from a small dynamo-driven flashlight sounded like a siren.

It was said that used for the photographs have not been indicated.

El Centro Feels Earth Tremors

EL CENTRO, Oct. 28. (Exclusive) Slight earthquake shocks were felt here at 4 o'clock this afternoon. The tremors were not severe enough to cause damage. California and Mexican loud-speakered light shocks at the same hour as did Yuma, Ariz.

Aged Professor in First Flight

BERLIN, Oct. 28. (AP)—Prof. Sigismund Freud, noted psychoanalyst, made his first airplane flight today at 72 years of age.

watch officer of the Los Angeles and flight officer of the station. In addition there are Mrs. Clara Adams, Tannersville, Pa., wife of George L. Adams, retired business man; Donald M. Castro, of Columbus, O.; Joseph D. Jessel of New York City; Col. Allen Miller, New York and London; and Paul M. Marko of Brooklyn, N. Y.

Lady Drummond Hay, who was the sole woman passenger on the voyage to America, remained in the United States.

CRAFT RUNS IN CIRCLES OVER NEWFOUNDLAND TOWN

ST. JOHN'S (N. F.) Oct. 28. (Exclusive)—The Zeppelin operator at Ellrinville, in the Bonaville district, reported the passage of an aircraft, apparently a lighter-than-air ship, at 1:15 p.m. Newfoundland time. The report did not give the direction of the flight but said "the ship" was circling from side to side.

Advisers from Berlin, on the south coast, also reported the sighting of an aircraft, traveling east-southwest, at 5 p.m. The type of the craft could not be made out on account of darkness.

It was a wild night over the Newfoundland coast, with a southeast gale blowing and rain falling. The Graf Zeppelin also was reported to have been sighted passing over Northern Right, Trinity Bay, at 1:30 p.m. local time. The wind was from the east and the ship was evidently shaped her course due northeast from Eastern Nova Scotia toward Fortuna Bay and across the island.

James T. Stoyles, local railway agent at Northern Right, and many of the villagers reported that they plainly saw the Zeppelin flying low over their village.

The reported sighting of the Graf Zeppelin over Newfoundland tonight appeared at various times with the last position reported by radio to Germany. This radio position was between 500 and 600 miles from where the dirigible left the American coast at Chatham, and the course was given as southeast.

Trinity Bay, N. F., is several hundred miles north and east of the position radiated at 2 p.m. eastern standard time.

HALIFAX RADIO STATION IN TOUCH WITH ZEPPELIN

HALIFAX (N. S.) Oct. 28. (AP)—The naval radio station tonight received a wireless communication from the Canoe station reporting the latter brand was in touch with the Graf Zeppelin momentarily at 8:30 p.m. Atlantic standard time, but that no information regarding the Zeppelin's position was obtained, owing to extremely bad atmospheric conditions.

ZEPPELIN REPORTS ALL WELL ON HUGE CRAFT SOUTH DARTMOUTH (Mass.)

Oct. 28. (AP)—The Massachusetts Institute of Technology radio station reported at 1:30 o'clock tonight that it had heard periodic reports from the Graf Zeppelin for more than an hour.

Operators at the station said they were unable to learn the ship's position but that the nature of the fragments received indicated all was well aboard. The Zeppelin, they said, had been in communication with a German ship at sea, whose call letters are DDJY.

FRIEDRICHSHAFEN GETS READY TO HONOR ZEPPELIN

FRIEDRICHSHAFEN (Germany) Oct. 28. (AP)—The home port of the Graf Zeppelin today was preparing a festive reception for the return of the giant air liner.

The staff of the Zeppelin Works and the landing crew have been ordered to stand by from 6 a.m. Wednesday morning for it is estimated that Dr. Eckener will be able to make a rapid flight on the return trip of between fifty and sixty hours. Meanwhile every one's eyes are glued on weather charts and the latest reports on the progress of the ship.

Precautions have been taken to prevent overloading of the dirigible's wireless capacity as happened on the trip to the United States. The Federal Ministry of Telegraphs has asked all radio stations to handle no private messages to the Zeppelin but only to send weather reports. It is also understood that dispatches from American and German news representatives have been placed on a restricted basis as Dr. Eckener is determined not to permit a recurrence of the situation prevailing on the American-ward trip when at times even weather reports could not be taken by the airship's operators because of the overcrowding of their facilities.

The municipality of Friedrichshafen is preparing great honors for the crew of the ship and is arranging a ceremonious reception for all aboard her.

COME and hear Rosenthal play Mendelssohn's "Song"—or Delcamp play a feature from the Broadway success "Funny Face"—or the late Victor Herbert playing "Kiss me again"—whatever your taste, Famous pianists—score of them—offer you brilliant performances, at any time, through the month of the Ampico. JERSEY VOTER
INQUIRY CALLED

Charges of Fraudulent
Registration Made

Department of Justice to Aid
Investigation

Federal Work Supplements
Action of State

WASHINGTON, Oct. 29. (P.)—Agents of the Federal Bureau of Investigation were ordered today by the Department of Justice to examine into reports of widespread fraudulent registration of voters in New Jersey.

John Marshall, assistant to Atty. Gen. Sargent, in charge of the field office work of the Bureau, in a letter to the United States District Attorney for New Jersey today said that his request for assistance in such an investigation, made last week, has been granted and that the Bureau will begin its work immediately.

It is pointed out in Atty. Gen. Marshall's letter that a Federal grand jury is now in session in New Jersey. In case evidence of fraudulent registration is assembled action upon it may be obtained before the election Tuesday.

The complaint as to false registration in New Jersey, originating with local and State officials, has been followed up in several quarters during the last two weeks and action has been taken by State authorities in the matter. The United States District Attorney was drawn into the situation last week in view of the fact that the election affects national as well as State and municipal offices.

MANY INDICTED
IN NEW YORK INQUIRY

NEW YORK, Oct. 29. (P.)—More than 100 persons indicted in instances of alleged illegal registrations in New York City were indicted today.

Jersey Leader
of Democracy
Cited to Court

TRENTON (N. J.) Oct. 29. (P.)—Frank Hague, Mayor of Jersey City and a vice-chairman of the National Democratic Committee, today was cited for contempt in refusing to appear before a legislative investigating committee.

In a letter read to the committee declining to appear the Mayor held himself answerable to the committee's subpoena "as well as any other individual," but declared he refused to become a victim of their present political maneuvering.

Traffic Police
Power Upheld

CHICAGO, Oct. 29. (Exclusive)—The Corporation Counsel's office announced today that the State Supreme Court has affirmed the validity of that section of the traffic ordinance passed March 6, 1927, which provides that a traffic officer can direct traffic according to the necessities of any emergency that may arise.

The Chicago Motor Club had appealed to the Supreme Court on a decision of the Municipal Court. The Municipal court had ruled against a citizen who had refused to obey the commands of a traffic officer and the motor club took up his case and appealed for him on the ground that the traffic officer in compelling a man to obey his orders was interfering with the citizen's personal liberty.

Third Aircraft
Inspector Here

SAN FRANCISCO, Oct. 29. (Exclusive)—Recognition of California's leadership in aviation development is seen in the assignment of a third aircraft inspector to this district by the Department of Commerce. Dillard Hamilton arrived from Washington today to assist E. E. Mouton, inspector in charge, and James G. Hall, assistant.

Hamilton, it was said, will center his activities on air lines north from San Francisco, Napo on those south and Mouton will continue his duties as general supervisor and give direct attention to the air lines east to Salt Lake City.

Race Gambling
Case Dismissed

REDWOOD CITY, Oct. 29. (P.)—Charges of violation of the State gambling law against James Jordan, usher at the Tanforan race track near San Bruno, were dismissed today at a preliminary hearing before Justice of the Peace McAniff. The judge held there was insufficient evidence.

Hurricane
Relief Fund

E. F. Clark, \$500. Temple Baptist Church, \$100. Total to date, \$52,102.45.

ANNEXATION
FAVORED BY
PENINSULA

San Mateo Sentiment
Held for Consolidation
With San Francisco

REDWOOD CITY, Oct. 29. (Exclusive)—Although opposition to the proposed consolidation of San Francisco and San Mateo counties was voiced by a Burlingame editor at a meeting here today, sentiment generally in favor of the move was advanced by several other officials and citizens.

The meeting was called to discuss a proposal that the county be supplied with a new charter, but it developed into a round of pleas to reserve decision until plans for consolidation are studied.

Those favoring consolidation centered their plea on cheaper water and power for San Mateo county and the good will of San Francisco in obtaining industrial growth for the peninsula, rather than allowing it to go elsewhere.

Opposition was based on the charge that San Francisco favors consolidation to escape the heavy taxes now paid San Mateo county by the Spring Valley Water Company system, which San Francisco is to acquire as part of the Hetch-Hetchy project.

SHOT KILLS
TENNESSEE
HOTEL MAN

Nashville Grain Dealer
Surrenders But Refuses to
Make Statement

NASHVILLE (Tenn.) Oct. 29. (P.)—Turner Cunningham, manager of the Andrew Jackson Hotel, one of the Dinkler chain, was shot to death today near his home. Walter L. Liggett, grain dealer, surrendered to police a few minutes later.

Cunningham was Southern president of the Greenback, national hotel men's organization. Liggett declined to say what caused the shooting but said he fired after Cunningham had fired several times at him. He was charged with murder and carrying a pistol.

Liggett is a member of the firm of C. L. Liggett & Son.

Wife Slayer's
Execution Set

SAN QUENTIN, Oct. 29. (Exclusive)—Prison officials today announced December 7, next, as the definite date for the hanging of John J. Malone, Los Angeles wife slayer, following receipt of formal word that the State Supreme Court has denied Malone's appeal.

Malone, while a prisoner in the Los Angeles County Jail, slayed the face of William Edward Hickman, who was hanged the 19th inst.

Leo (Pat) Kelley, Los Angeles slayer of Mrs. Mary Melba, is scheduled to hang November 23, it was said.

BAY CITY POLICE TRAP
YOUNG YEGG SUSPECT

SAN FRANCISCO, Oct. 29. (Exclusive)—Felix Galitzin, said to be wanted in Los Angeles for safe robbery, was captured by police who waited all night for him to return to a garage in the shadow of the Postoffice with a rented automobile. Galitzin, the officers said, tried to shoot it out with them and they believe their lives were saved only because his pistol jammed. Although only 18 years of age, the prisoner is described as an expert safe cracker.

He is held "en route to Los Angeles" and for burglary and violation of the State revolver law.

BALLOT REPRINTING
ORDERED IN ARIZONA

GLOBE (Ariz.) Oct. 29. (P.)—The ballot of Gila county for the coming general election were ordered reprinted by Judge Faires following a hearing in Superior Court here this morning on mandamus proceedings brought by H. B. Gardner, chairman of the Republican Central Committee, charging that the ballots were illegal. One of the objections mentioned in Gardner's complaint, filed last week, was the placement of the Republican ticket after that of the Workers-Communist.

CONGRESS WET
POLL PROPOSED

Borah Dares Smith to Quiz
Democrats on Liquor

Calls on Governor to Clarify
Prohibition Stand

Senator Talks for Hoover in
West Virginia

CHARLESTON (W. Va.) Oct. 29. (P.)—Senator Borah of Idaho in a speech here tonight called on Gov. Smith to clarify the prohibition issue, "by taking a poll of the Democratic members of Congress to ascertain whether 50 per cent of them are with him or against him on the repeal of the Eighteenth Amendment."

Citing the Governor's declaration that 80 per cent of his party's members of Congress are "pledged" to support his tariff stand, the Idaho Senator said that the Democratic Presidential nominee had "changed his mind" on prohibition and should "clarify the issue before election."

URGES CONGRESS POLL

He proposes that Gov. Smith send a telegram to each Democratic member of Congress asking for their views on the repeal of the prohibition amendment and on his proposal for the public manufacture and sale of liquor.

"Perhaps Gov. Smith prefers to wait until after the election," Mr. Borah added, "there doubtless are sound reasons for his doing so." The Senator, who is making his final campaign swing for Herbert Hoover's Presidential candidacy, delivered his speech in the West Virginia capital city over a State-wide radio hook-up. Tomorrow night he will make his second invasion of the campaign into the normally Democratic State of Virginia to speak at Norfolk.

HITS AT WET STAND

Directing his fire on the prohibition stand of Gov. Smith, the Senator charged that the Democratic nominee "in his western speeches said there was not much a President could do about the liquor question, but just recommend a course, and in his Philadelphia speech he gave his audience to understand that he is out to and propose and will have the power to end prohibition."

"The Governor wants the issue clarified," Senator Borah concluded. "It would greatly clarify the prohibition issue if he would state whether or not he had undertaken to find out how the Democratic members of Congress stand and what progress he has made on his prohibition course. All that is necessary is to send the same kind of a telegram that he sent in regard to the tariff. It would not cost a great deal, I am sure, knowing how Mr. Raskob feels; that he would foot the bill."

MONTEREY JUDGE NAMED

SACRAMENTO, Oct. 29. (P.)—Gov. Young announced today the appointment of Henry O. Jorgensen, Monterey attorney, as Superior Judge of Monterey county, succeeding the late Judge Treat, who was killed in an automobile accident a few weeks ago.

FINAL ROUND
HOOPER VS. SMITH

It's a battle of political giants. From early evening until midnight excitement will mount.

RUSSIANS RANT AT ART AUCTION

Ex-Nobles Swarm to Berlin to Defend Treasures

Threat Made to Prevent Sale of "Private Property"

Soviet Authorities Declare Objects Confiscated

BERLIN, Oct. 25. (Exclusive)—Headed by Grand Duke Gabriel Constantinovich, Russian refugees, aristocrats are rushing to Berlin from all parts of Europe to examine the catalogue of the Soviet art treasures which Russia is selling at auction November 6 and 7 in Berlin's leading auction rooms—the Lepke Company.

An indignation meeting was held last night in the private residence of one of Berlin's leading White Russians, attended by the Grand Duke Gabriel, Prince Felix Yusupov, Countess Shuraloff, Countess Colopov, Mme. Skurpinski and Princess Gotschinsky and others.

HOW THREATENED

It led to the discovery that the greater part of the art works offered for sale were the private property of these people, and their

HOMES OF RIVAL CANDIDATES BOMBED IN CHICAGO CONTEST

CHICAGO, Oct. 25. (AP)—The race for State's Attorney, the warmest contest in the present campaign in Chicago, is even today in one respect; each candidate has been "bombed."

The bombing of Judge Swanson's home was one of the startling occurrences of the primary campaign, a bomb exploding at the Swanson dwelling only a few minutes after one had blasted away a portion of

United States Senator Deneen's home, not far away. Judge Swanson is the Republican candidate for State's Attorney.

A bomb presumably directed at his Democratic opponent, Judge Lindsay, tore away part of a garage at the rear of the Lindsay home Saturday night.

"Gang rule" has been the campaign issue of both candidates, each promising if elected, to rid the city of bombers, gunmen and racketeers.

friends. The meeting decided to take energetic steps to ask the German courts for a provisional interdiction, and also to see the auctioneers for the rest of the stolen goods.

"If the German courts do not give satisfaction," one of the indignation chairmen said tonight, "we will attend the sale and make such a row as to render the whole proceedings impossible."

Toward the end of the meeting a dramatic altercation took place between rival claimants of the same articles, two infuriated countesses nearly coming to blows because both asserted themselves to be the sole owners of a picture included in the catalogue.

ACTION EXPLAINED

The representative of the Soviet authorities in Berlin gave the following explanation:

"During the revolution all personal property of counter-revolutionary activity had their goods

confiscated. Art works were incorporated in the state museums, which thus became inflated. This action reposes on the famous French precedent, when the art works of the French aristocrats' collections at the time of the French Revolution were incorporated in the Louvre and other French galleries. What we are selling is national property."

German official action is hampered by the fact now revealed that the selection of art works and whole idea of the auction in Berlin emanated from the late Count Brockdorff-Rantzau, German Ambassador to Moscow.

MINERS TO PAY TRIBUTE

HARLETON (Pa.) Oct. 25. (AP)—The machinery of every colliery in the anthracite coal region is stalled today as 150,000 miners celebrated Mitchell day in honor of the late John Mitchell, former international president of the United Mine Workers of America.

COLONIZING SHIP HELD BY CHINESE

Government Objects to Assured Transportation of National Workers

SHANGHAI, Oct. 25. (Exclusive)—The Nationalist government overseas affairs committee today ordered the detention of a Spanish steamer in Taku, off Tien-tsin, on the grounds that the steamer was engaged in transporting Chinese laborers for colonization purposes in the Spanish colony located on the west coast of Africa, South Morocco. The government statement says:

"Since such action concerns the welfare of the Chinese people, the government does not intend to permit such transportation of Chinese laborers in the future unless it is specially sanctioned by the Ministry of the Interior and Foreign Affairs."

In addition to this action, the government ordered an investigation of the conditions surrounding Chinese laborers within the Dutch East Indies, the matter being precipitated by the recent action of the Dutch colonial authorities in deporting several members of the Kuomintang from Java and Sumatra.

Three Admirals Given Change in Navy Commands

WASHINGTON, Oct. 25. (AP)—The Navy Department today announced three changes in high command.

Rear-Admiral Lucius A. Bostwick, who has been president of the Board of Inspection and Survey, was ordered to command Battleship Division 3 of the battle fleet to succeed rear-Admiral Frank A. Upham, who will command the control force, succeeding Rear-Admiral Frank H. Brumby, who was made president of the Board of Inspection and Survey.

Six Slain Over Dress Reform

BAGDA (Iraq) Oct. 25. (AP)—Six Persian officials have been slain near Ahwas, Persia, by Arab tribesmen who, it is reported, are resisting the dress reforms. The new dress regulations, which require wearing a hat, coat and trousers instead of the traditional costume, have aroused discontent among the tribesmen.

At the time of the attack the officials were attempting to disarm the tribes. Troops quickly placed the situation under control.

AIRCRAFT RADIO VITAL QUESTION

Aerial Transport Concerns Ask Plane Channel

Entertainment Purveyors to Fight Limitation

Life-or-Death Matter Hangs on Commission's Action

WASHINGTON, Oct. 25. (Exclusive)—The issue between the aviation industry and the commercial broadcasting companies is about to be dragged out into the open in the next few weeks, when representatives of the Boeing Company, of the Western Air Express, of the National Air Transport and other aeronautical concerns appear before the Federal Radio Commission at Washington, to request adequate short-wave channels for radio communication for their aircraft.

This matter has been simmering behind the scenes for some time past and it needed only the recent voyage of the great air liner Graf Zeppelin to bring sharply home the urgent need of radio for aviation. If the public is to have confidence in this new mode of transport it is essential that the ground organization be in constant touch with the pilot in the plane as he travels over mountains and prairies. He must be warned of sudden squalls ahead or of other emergencies and communication must be maintained at all times.

ENGLAND SOLVES IT

Great Britain went through this same difficulty some time ago, and learned that in order to gain the public confidence a definite system of plane-to-ground radio communication was a vital requirement. As a result the present method in use at Croydon far surpasses anything we have in this country and the tremendous mileage of civilian aircraft in England without fatalities speaks for itself.

Something of this sort is demanded in America, but the chief difficulty, according to technical radio men who are studying the situation, is that aviation as a whole is not co-ordinated here. The various companies do not know just what they want. They know that something different is needed but they cannot seem to put forward any well thought-out plan.

The Federal Radio Commission now is considering aeronautical requirements and if the air industry cannot consider its requirements and express them before the members of the commission, how can the proper consideration be given them?

INTERESTED INTERESTS

Advice was recently given to several different representatives of the air companies to "get together" on this vital problem. The issue comes right down to a question of life and death as against entertainment plus the interests of the point-to-point communication now covered by the land lines. Seven million dollars is invested in the matter and, as may well be imagined, tremendous pressure will be brought to bear.

Aboard they are using the long wave, rather than the short for plane-to-ground communication. Whatever system is decided upon, whether of high frequency, medium or long, the installation for airplanes must be compact. It must also be simple, light and able to go for long distances with but little power.

Several people here are trying to work this out by using high frequency and, incidentally, it seems to be less well recognized that even at the lowest end of the wave band the distance is observed by aircraft radio operators, even within what is usually the zone of silence for land stations of the same wave length.

PHENOMENON NOTED

This phenomenon was observed by the eminent Dr. Hoyt-Taylor some time since in an article for the Institute of Radio Engineers and was corroborated by Dr. Kurt Kruger, now of the staff of radio scientists on the Graf Zeppelin and regularly attached to the German Institute of Aerial Research. In an interview with this writer a few days ago he stated that he has carried out a great many short-wave tests in Germany with plane-to-ground communication and found that if one chooses the right wave length there is no zone of silence.

This is intensely interesting to the scientists of this country, as we have been earnestly striving to clear up this mystery of radio, and with aircraft it is, of course, vitally important to maintain constant and dependable two-way traffic. A pilot is a busy man. He has no time to spare outside his duties in handling his ship and if he has to attend to other matters it is difficult or even impossible for him to do any of them effectively.

QUESTION PROPOUNDED

Thus the matter narrows down to the question: Is high frequency the answer? Whether this is the solution to the problem remains to be seen. We may attack it from the mechanical standpoint by using the medium wave lengths, which are known to be reliable and make up small light sets that will perform adequately.

Or the radio engineer may say to himself: "First, I will try a small set with which I can use high frequency and try to make it 'get through' at all times." Or again, if he has studied the European method he will favor the safer and more reliable medium waves on a frequency that has proven itself and then attempt to construct a light set.

A great deal has been said about the radio beacon and of the various efforts that have been made in that direction. The fact remains that still more work remains to be done and in any case the radio beacon is chiefly useful as a guide and adjunct to direct radio communication. By means of the latter the pilot may be warned of dangers ahead on his route or report his location.

IMPORTANT HEARING

The hearing before the Federal Radio Commission therefore promises to be of more than usual interest and hardly less so when it is considered that radio is only in its infancy and aviation radio, in which we now take such deep interest, a matter that was almost unheard of a couple of years ago by the average American pilot.

AUBURN Outsells All Straight Eights

This is certainly an outstanding sales record, but it is only consistent with the performance records being made by Auburn Straight Eights all over the United States.

All figures are certified by Motor Fax.

In Los Angeles alone Auburn sold 607 Straight Eights, leading its nearest competitor by 326 cars. This further establishes the fact that the public knows dependable performance is found only in the Straight Eight.

Auburn outsold its nearest competitor by 196 cars in Los Angeles County.

Auburn Straight Eight sales lead all other competitors by 109 cars in Southern California. We are certainly proud of these sales figures because they emphasize the fact that the public believes in Auburn.

AUBURN HOLDS OTHER RECORDS

84.73 miles per hour for 24 hours, which was made at Atlantic City under A. A. A. supervision. Auburn holds all records for distances from 5 to 2000 miles. Auburn made the fastest time ever made by any stock car in the Pike's Peak hill climb, traveling the distance in 21 minutes 45 and 2-5 seconds.

All of Auburn's performance records were established under the supervision of the A. A. A. and the sales records were made under the supervision of the people of Southern California.

PEERLESS was not located at Slawson and Main streets merely as a convenience to its employees... not because property value was lower. The reasons are far more important! To begin with... the founders of the World's Largest Laundry fully realized that pure fresh air was essential to the proper laundering of your clothes... and so sought a location away from the dust and smoke screen that overhangs the busy commercial centers of our city. But just as important... laundering requires the very purest and softest water. And 500 feet beneath **PEERLESS** was found an underground river of pure, well water that is ideal for the purpose. The result is very evident in every bundle of laundry that leaves our gigantic model plant.

Just send your clothes "out of the beaten path" to **PEERLESS**... and note the difference.

League Meeting L. BARRAGAR AID UP IN HOSPITAL

(First Page)
L. Barragar, who was injured last night while playing football for the Los Angeles team, is in the hospital today, suffering from a broken leg and a dislocated shoulder.

He was taken to the hospital after the game last night, and is expected to be out of the hospital in a few days. The Los Angeles team will play again tomorrow night.

Winfield Brady, who was also injured last night, is also in the hospital. He is expected to be out of the hospital in a few days.

Many Upsets Registered In Eastern Football Games Last Week

NAVY BACK IN GOOD FORM WITH VICTORY OVER PENN

Harvard Displays Real Ability in Game With Dartmouth; Cagle Lauded by Bill Roper

BY BILL ROOPER
Princeton Football Coach
Princeton, N. J., Oct. 29.—Saturday was full of surprises, with the Navy's wonderful comeback against a strong Harvard team and the Navy's 19-7 victory over Dartmouth.

The Navy's comeback was the most surprising upset this season. The Navy had been out of the game for most of the first half, but in the second half they came back with a vengeance.

Harvard's victory over Dartmouth was also a surprise. Harvard had been out of the game for most of the first half, but in the second half they came back with a vengeance.

COVINA COLTS MAKE PAIR OF CHANGES IN FOOTBALL DATES

Rather than miss the Stanford-Southern California grid classic officials of Covina and Santa Ana High schools recently decided to have the Colts and Saints settle their football argument next Friday instead of Saturday. The Covina-Santa Ana clash is one of the most attractive games on this week's sports grid and is expected to draw a large crowd to the Santa Ana field Friday.

ROUGH RIDERS FAVORED IN BELMONT FOOTBALL BATTLE

One of the best games in the city this Friday will be staged at Belmont High School, where Coach Clark De Groen's Rough Riders are in for a tough afternoon. Belmont has one hard game left on their schedule, after Roosevelt, meeting Fremont in the last round of play in the Junior City League. Two other games are scheduled, Fremont traveling out to Gardfield, while Fairfax takes out to Harding.

One thing is Belmont's favor. It is not the soft turf that the Rough Riders are used to, but the hard-packed Santa Ana field. In the two other games Fremont is favored over Gardfield with a very good chance for an upset. Belmont should win easily over Harding.

PRINCETON TO JOURNEY WEST

(Continued from First Page)
Expected to reach the goal at Columbus, Ohio State whiffed Indiana 13 to 6 Saturday, playing the best-balanced Buckeye attack in three years. The victory carried Ohio to the top of the list, as it is the only team to play and win three conference games, although Minnesota's home crushers, 7 to 6, in a thriller Saturday at Iowa City, will rest up with probably the record for rushing yards per game.

Coach Burt Ingwersen's ponderous Iowa Hawkeyes, who subdued Minnesota 7 to 6, will have a day off in a thriller Saturday at Iowa City, will rest up with probably the record for rushing yards per game.

BANK TAXATION
BILL ADVOCATEDDirector of State Finances
Urges Its SupportPoints Out \$22,000,000 Savings
in Two YearsMain Features and Objects of
Measure Explained

SACRAMENTO, Oct. 25. (Exclusive)—In a statement issued today by Alexander R. Heron, director of the State Department of Finance, and member of the State Tax Commission, voters of California are urged to support the taxation amendment appearing as No. 3 on the November ballot. The amendment is designed to remedy an emergency that has arisen in the State's fiscal system through a recent decision of the Supreme Court, declaring the taxation imposed on national banks in this State, under the present law, as inoperative and void.

OBJECTS ACCOMPLISHED

In addition to saving to California in the next two years an amount estimated by the State Tax Commission at \$22,000,000, Mr. Heron states that the passage of No. 3 will:

- (1) Restore national bank taxes to the State Treasury.
- (2) Place upon the tax rolls of the counties intangible personal property running into millions of dollars, that otherwise will be hiding through fear of the 100 cents on the dollar tax that the same decision makes effective in California.
- (3) Make taxable the property of bank institutions, allied or subsidiary to banks, which have previously escaped taxation, because of the fact that their property consisted chiefly of intangibles.
- (4) Correct gross inequalities now existing in the taxes assessed upon the franchise of California corporations.
- (5) Accomplish the above purposes without imposing any greater tax bill upon California than it now pays.
- (6) Enable the State to proceed with an orderly study of its present tax system.

EMERGENCY ANALYZED

In his statement Mr. Heron analyzes the emergency that has arisen in the taxation system of California by reason of the decision of the United States Supreme Court. This decision, which is in line with decisions made upon banking laws in other States, declares the California law governing the taxation of national banks to be in conflict with Congressional enactments on this subject. The effect of the decision, he points out, is to make national banks operating in California now tax free, measured in dollars and cents. The loss to California in the next two years will total \$22,000,000, according to an estimate of the State Tax Commission.

The passage of No. 3, entitled "Taxation" on the ballot, Mr. Heron says, is the only method by which national banks can be taxed on the State tax rolls. He further declares the amendment to be the key of a more equitable system of taxation for California.

ESSENTIAL FEATURES

The essential features of the amendment are designated in the Heron statement as follows:

- (1) It accords with Congressional enactment.
- (2) It will enable California to continue its present system of exempting mortgages from taxation.
- (3) By permitting the establishment of a preferential tax rate on personal property owned as intangibles, it will place upon the assessment rolls a vast amount of this property now undeclared, "except when possessed by an exempt ecclesiastical taxpayer."
- (4) It places State taxes upon an equality of taxation with national banks.
- (5) Loss in taxes from banks made necessary to comply with Federal requirements will be largely offset by:
- (a) Taxes imposed on local in-

HOOVER ACCEPTS
NEW "PLANK"Washington State Senator
Offering Not Meant for
Platform, However

WASHINGTON, Oct. 25. (AP)—Herbert Hoover today received one of the largest postcards of record, a panel eight feet long and four feet wide, cut from an enormous Washington Douglas fir tree and bearing greetings from the Hoover-Curtis Club of Washington University at Seattle.

More than 2000 members of the club signed the "card" with special waterproof ink. The board was sent by first-class mail and was insured for \$10,000, the postage alone totaling \$15.

stitutions, allied or subsidiary to banks, which have escaped taxation in the past because of the fact that their assets consisted chiefly of intangibles;

- (b) By an increase on the franchise taxes of corporations which "on the face of the figures have paid too small a tax in the past."
- (c) The amendment will equalize gross inequalities now existing between the franchise taxes paid by different classes of corporations.

HOW AMENDMENT WORKS

The amendment proposes to substitute a tax on the value of national banks measured by their net income in lieu of the tax on gross inequalities now existing between the franchise taxes paid by different classes of corporations. The effect of this amendment, Mr. Heron estimates, will be to reduce the franchise taxes paid by 15,000 of the 20,000 corporations in the State.

After the Cleveland experiment, the North American Company may extend the service to the other cities in which it operates. One of the largest of the power groups, it has subsidiaries mainly in Ohio, Illinois, Iowa, Missouri, Wisconsin, Michigan and California. Their combined sales exceed \$100,000,000 and including such cities as St. Louis, Indianapolis, Jackson, San Francisco and Oakland.

MAY EXTEND SERVICE

The North American Company also has substantial investments in the Detroit Edison Company and the Washington Railway and Electric Company of the District of Columbia.

LARGE SUMS SPENT

Wired Radio, Inc., besides having produced up to now 600 patents in the six years of its existence, has had agents scouring the world for material. They have been signing scores of "copyright rights" and entering into agreements with the key people controlling entertainment, motion picture and musical copyrights, the great amount ready to pour into promotion and the tremendous financial resources of the North American Company assure the serious entrance of "wired radio" into a newly created field.

ADVANTAGES SHOWN

The advantage held for it over broadcasting is that "wired radio" is free from the variable of "space radio." This means that programs received in this way do not suffer from static, fading, heterodyning, skip distance effects and night variations and the many other troubles of radio. A whole new range of frequencies, fully as great as the range of broadcast waves, can be used and kept under control in a way that ordinary radio cannot.

At the receiving end, either the specially built set can be plugged into the house wires or the pick-up device plugged in and attached to an ordinary radio receiving set. The set invented by Gen. Squier is called the "Monophone," the word meaning "one-way telephone." It is a three-tube outfit, one a detector and two stages of audio. It is tuned into a particular program by the mere pressing of a button. Three or four programs will be offered initially, but it is said that many more can be carried along the path of the wire. The wide range of frequencies opens up the prospect that when television arrives, it will be received into homes by means of "wired radio," on account of the scarcity of ether wave lengths and the multitudinous distortions and variations that a visual signal would suffer after traveling through the air.

WIRED RADIO TO
MAKE ITS DEBUTNew Broadcasting System
Ready for Early DatePrograms to be Given Fans
Over Power LineMillions Spent on Project by
Large Interests

(Copyright, 1933, by Press Publishing Company, New York World.)

WASHINGTON, Oct. 25. (Exclusive)—"Wired radio" will make its debut in Cleveland early in 1933. This was learned definitely today from C. W. Hough, president of Wired Radio, Inc., a subsidiary of the North American Company of the Stone and Webster public utility group.

Three power substations in Cleveland now are being equipped for transmitting entertainment programs by radio waves directed along the power lines that extend into the homes served by the stations. The studios of the broadcasting station WTAM-WEAR, in which the North American Company now is revealed as a stockholder, probably will be used by the talent.

This is to be the first stage in the introduction into many cities of "wired radio" programs sent into homes along the power lines. Mr. Hough declared that a "radio socket" plug-in receiving set will be furnished customers for this service as a nominal monthly rental. Those preferring to use their regular radio receiving sets and loud speakers will be able to obtain a device enabling them to tune in the "wired" in addition to the "space" radio.

MAY EXTEND SERVICE

After the Cleveland experiment, the North American Company may extend the service to the other cities in which it operates. One of the largest of the power groups, it has subsidiaries mainly in Ohio, Illinois, Iowa, Missouri, Wisconsin, Michigan and California. Their combined sales exceed \$100,000,000 and including such cities as St. Louis, Indianapolis, Jackson, San Francisco and Oakland.

The North American Company also has substantial investments in the Detroit Edison Company and the Washington Railway and Electric Company of the District of Columbia.

Serving more than 1,000,000 customers with power and light, this giant concern has seen the possibility of furnishing these customers with entertainment also. It insists that it is entering the field as an adjunct to radio rather than as a competitor. It is known, however, that an effort some time ago to consolidate "wired radio" with one of the largest radio groups, failed to materialize.

LARGE SUMS SPENT

Wired Radio, Inc., besides having produced up to now 600 patents in the six years of its existence, has had agents scouring the world for material. They have been signing scores of "copyright rights" and entering into agreements with the key people controlling entertainment, motion picture and musical copyrights, the great amount ready to pour into promotion and the tremendous financial resources of the North American Company assure the serious entrance of "wired radio" into a newly created field.

ADVANTAGES SHOWN

The advantage held for it over broadcasting is that "wired radio" is free from the variable of "space radio." This means that programs received in this way do not suffer from static, fading, heterodyning, skip distance effects and night variations and the many other troubles of radio. A whole new range of frequencies, fully as great as the range of broadcast waves, can be used and kept under control in a way that ordinary radio cannot.

At the receiving end, either the specially built set can be plugged into the house wires or the pick-up device plugged in and attached to an ordinary radio receiving set. The set invented by Gen. Squier is called the "Monophone," the word meaning "one-way telephone." It is a three-tube outfit, one a detector and two stages of audio. It is tuned into a particular program by the mere pressing of a button. Three or four programs will be offered initially, but it is said that many more can be carried along the path of the wire. The wide range of frequencies opens up the prospect that when television arrives, it will be received into homes by means of "wired radio," on account of the scarcity of ether wave lengths and the multitudinous distortions and variations that a visual signal would suffer after traveling through the air.

COVER TOP

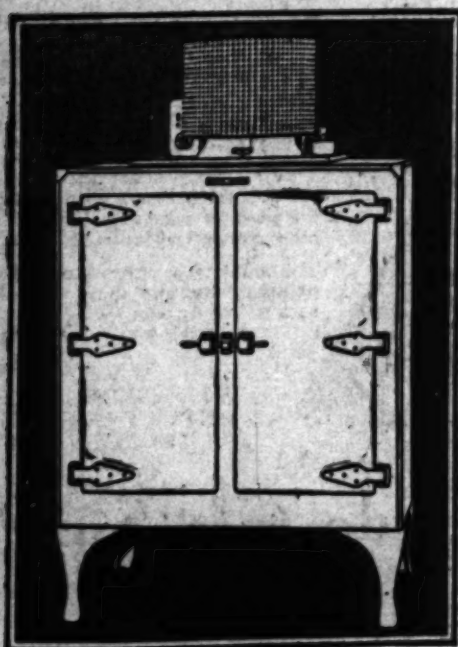

The
**LARGER
DETROIT JEWEL
RANGE**

THE COVER TOP of the new Detroit Jewel HOLDS FROM SIX TO EIGHT PANS. The top is so designed that all these pans may be kept boiling with just two low flames. The front section alone will hold the large 10-inch skillet and 10-quart preserving kettle. The shelf over the top is built extra high so that it is easy to remove the pans at the back of the cooking top.

THE OVEN will hold the large 18-pound turkey roaster with room on the side for plenty of baked potatoes. On the top shelf you can also place casseroles and baking dishes! The oven measures 18x20 inches, 14 inches tall. It has the Detroit Jewel patented oven construction—"They Bake Better." The range as a whole takes only a 49 1/2-inch floor space!

See the new Detroit Jewels priced from \$109.25. Model shown, full porcelain, 18x20 inch oven, \$152.00. Any range may also be purchased on terms if you wish.

STUDENTS FACE SPEEDY JUSTICE

Georgia Collegians Indicted
for Two Murders

Confession of Killer Backed
by Investigations

Grand Jury Acts Quickly on
Evidence Presented

ATLANTA, Oct. 29. (AP)—The Fulton county grand jury late today returned two joint indictments against George Harsh and Richard Gray Gallagher, Oglethorpe University students, charging them with the murder, on the 16th inst., of E. H. Meek, grocery clerk, and Willard Smith, a pharmacist's clerk, who was shot to death during a hold-up.

The indictments came from the grand jury room less than three hours after a special session of the jury began its investigations. Harsh, a police in whose apartment after his arrest Saturday night, made a statement admitting firing shots that killed Meek and Smith and naming Gallagher as the driver of the automobile used to flee the scene of the robbery.

This afternoon counsel for Gallagher filed application for Gallagher's release on a writ of habeas corpus. Hearing on this was set for Friday. The special session of the grand jury began its work at 3 p.m.

Members of the Solicitor-General's staff said they were continuing investigation of the case. Harsh, police said, admitted participating in a half-dozen robberies of small Atlanta stores during recent weeks. The former Oglethorpe University student was indicted after John Lowe, city detective who investigated the robberies and deaths of which they are accused, appeared before the grand jury. A doctor who treated Harsh after he was shot by Smith, a friend in whose apartment Harsh spent the night to receive treatment for the wound Smith inflicted in his fight and several others whose identities were not divulged appeared before the grand jury.

San Francisco, Oct. 29. (AP)—The Consolidated Water Company of Panama, now out of the water business and operating a general brokerage business in Los Angeles, may continue to conduct business, the Circuit Court of Appeals ruled here today. The court affirmed a Los Angeles District Court decision of Gary Swan's attempt to have a receiver appointed and the assets distributed. Swan's petition asserted that he was a minority stockholder when the company sold its properties to the city of Panama in 1926.

Swan declared the sale was made without permission of stockholders or notice to them. The Circuit Court upheld the District Court's contention that Swan's petition showed insufficient cause for action.

APPEAL IN TOWNSEND ESTATE CASE FAILS

SAN FRANCISCO, Oct. 29. (AP)—Efforts of Ames Williams, public administrator of Santa Clara county, to handle the \$600,000 estate of Nicholas Townsend, failed today when the State District Court of Appeals affirmed the Santa Clara Superior Court ruling which awarded administration to the Security Trust and Savings Bank of Los Angeles. Townsend died at San Jose November 6, 1926, leaving two wills. The first named the bank, but a later one made no provision for administration.

INFORMAL CONTRACT LET
WASHINGTON, Oct. 29. (AP)—The contract for a 100-bed Veterans' Bureau infirmary at Walla Walla, Wash., was awarded by the Bureau today to N. P. Severin & Co. of Chicago. The price is \$329,000, and the infirmary must be completed in 180 days.

DE FOREST WINS RADIO VERDICT

"Feed Back" Circuit Title
Denied Westinghouse

Confusion Exists in Fight
Over Patents

Supreme Court Ruling
Without Opinion

WASHINGTON, Oct. 29. (AP)—The Westinghouse Electric and Manufacturing Company today was denied title to the "regenerative" or "feed-back" circuit, a basic feature in radio amplification used in many receiving sets. The Supreme Court announced without opinion that the decision of the lower court was affirmed on authority cited.

The Westinghouse claim was based on patents granted Edward H. Armstrong and won in the Federal courts in New York City. The company lost, however, in the Federal courts at Philadelphia, in Delaware and in the District of Columbia.

OTHERS CLAIMED CIRCUIT
The De Forest Radio Telephone and Telegraph Company claimed the circuit under patents granted Lee De Forest; the United States under patents to Alexander Meissner, and the General Electric Company under patents to Irving Langmuir.

Confusion exists in the minds of Supreme Court lawyers as to the effect of the decision today. The decision of the Federal courts in New York City, both district and circuit, was in favor of the Armstrong patents, while the Federal courts of Philadelphia and Delaware and of the Third Circuit Court of Appeals were all in favor of De Forest, who had obtained a decision in the Patent Office which was sustained in the Federal courts of the District of Columbia.

DE FOREST FAVORED
The two cases which came before the Supreme Court were those decided in Delaware and Philadelphia, in which De Forest won. Subsequently the Third Circuit Court of Appeals affirmed both. During the argument of the case and in the brief submitted to the court this conflict of decisions was emphasized, but the decision today without a formal opinion, merely stating "affirmed on the authority of Morgan v. Daniels, 153 U.S. 130," has the direct effect of affirming the decision of the lower Federal courts in the Third Circuit in favor of De Forest.

OREGON LOSES ISLAND

Land Ceded to Government by
State, Court Holds

SAN FRANCISCO, Oct. 29. (AP)—Sand Island at the mouth of the Columbia River in Oregon, ceded to the United States by Oregon in 1864 and later the subject of litigation between State and Federal government, will remain in the possession of the government. In making this ruling here today the United States Circuit Court of Appeals affirmed the decision of the Federal District Court in Oregon.

The island, ceded originally for military purposes, is now under lease to salmon trollers. In 1897 Congress authorized the Secretary of War to lease the tract.

In 1923 the State of Oregon sought title to the island on the ground that it was ceded only for military purposes and that the grant was never accepted by Congress. The Circuit Court held such a condition could not be included in a grant and that legislation authorizing the Secretary of War to lease the land constituted sufficient acceptance.

DEFAULTING ARIZONA OFFICIAL SENTENCED

TUCSON (ARIZ.) Oct. 29. (AP)—George F. Gray, defaulting assistant cashier of a local bank, and City Treasurer, must serve from five to ten years in the State penitentiary, according to sentence pronounced by Superior Court here this morning by Judge Jones.

CURTIS WHACKS SMITH'S VIEWS REPUBLICAN ROYALISTS BETROTHED

Questions His Sincerity on
Tariff Issue

Quotes Governor's Recent
"Hold-up" Speech

Great Crowd Hears Senator
at South Bend

SOUTH BEND (Ind.) Oct. 28. (AP) The sincerity of the stand of Gov. Curtis for a tariff was questioned here tonight by Senator Smith, the Republican Vice-presidential nominee, before an Indiana Republican rally.

Speaking over the radio on a nation-wide hook-up, the Senator read a statement by Gov. Smith of a few years ago declaring the tariff to be a "cold-blooded hold-up of the whole American people." He said the Governor in his speech of acceptance endorsed the Underwood tariff act and then at Louisville "he said he was for a competitive tariff."

WHEELS STOPPED
"As a result of the Underwood Act," Curtis declared, "business was so disturbed that the wheels of the factories were silenced and we had to maintain soup houses in 1913 and 1914. There never was and never will be a workingman benefited one single dollar by a competitive tariff. There never was a factory wheel set in motion by a competitive tariff. There never was a mine opened. We Republicans believe in a protective tariff that gives to American labor, American farmers and American industry an advantage over foreign producers." The huge Palais Royale Ballroom was jammed for the meeting and the audience gave the nominee a hand as he struck out at Gov. Smith. Another crowd stood outside. Cheers greeted an attack by Senator Curtis also on the immigration and farm-relief views of the Democratic Presidential nominee.

OUR COUNTRY
"This is our country," the Senator said, "and anyone who isn't willing to obey our laws should get out. We owe it to foreign-born and native-born to protect our nation against a flow of immigration. Since he has become a candidate Gov. Smith has changed his position on both the tariff and immigration. He said a few years ago he was against restrictive immigration. He now says he is for it. But he would modify the quota basis and thus open the doors to a new flood of immigration."

WHITE RAPS SMITH AND TAMMANY

Editor Points Difference
Between Two Candidates
in North Carolina Speech

HIGH POINT (N. C.) Oct. 28. (AP) William Allen White in an address here tonight declared that the essential things which separate Herbert Hoover and Alfred E. Smith are their backgrounds.

Mr. Hoover, he asserted, has an American background and an American mind, while Gov. Smith has a Tammany background and a Tammany mind.

"Tammany," he declared, "is an oligarchy, foreign in its nature and American in its aims. It is a system of American ideals as exemplified in Hoover."

The Kansas editor spoke of prohibition as an economic measure designed to conserve the economic resources of the nation even at the surrender of a little personal freedom.

"Tammany has paid to this noble experiment," Mr. White said, "the tribute of a horse laugh."

Another Claims Killer Beitzel as Her Husband

PITTSBURGH, Oct. 28. (AP)—After examining photographs of Russell E. Beitzel, sentenced to die in San Quentin prison, California, November 30, for the slaying of Barbara Mauer, Mrs. Mary Thomas, 28 years of age, of McKeesport, tonight said Beitzel was her husband.

Mrs. Thomas's 7-year-old son also recognized the photographs as those of his father, the woman said. Mrs. Thomas said her husband deserted her five years ago and that she had not seen him since. Pictures of the convicted slayer were sent to her by Sheriff William I. Trauger of Los Angeles after she had requested photographs upon seeing Beitzel's picture in a newspaper.

The woman is the second to claim Beitzel as her husband. Mrs. Jean Mulliner Beitzel, Lancaster, Pa., having made a similar claim shortly after the man was arrested for the murder of the Mauer girl.

Toral's Trial on Next Week

MEXICO CITY, Oct. 28. (AP)—The trial of Jose De Leon Toral, who assassinated Gen. Obregon, President-elect, will be set probably for early next week, along with that of Mother Concepcion, charged with complicity. Counsel for the defense today delivered to the court an outline of the case.

The attorneys maintain that the assassination of Gen. Obregon was a crime of political nature; that Toral killed the President-elect in the hope of alleviating the religious situation of the country and did so without any feelings of hatred toward the victim.

BOOTLEG BRINGS ARREST
HANFORD, Oct. 28.—Clarence J. Martinez of Fresno was overhauled on the Elm-avenue road near Rib yesterday on his way to Hanford by Undersheriff Buckner with nine five-gallon cans asserted bootleg liquor.

WIDOWED GREEK PRINCE TO TAKE FRENCH PRINCESS DAUGHTER IN MATRIMONY

Questions His Sincerity on
Tariff Issue

Quotes Governor's Recent
"Hold-up" Speech

Great Crowd Hears Senator
at South Bend

ROME, Oct. 28. (AP)—Prince Christopher of Greece, widower of the late Mrs. W. R. Leeds of Cleveland, O., is engaged to Princess Francoise, second daughter of the Duke of Guise, pretender to the French throne. The marriage will take place at the Orleans family estate at Palermo next January.

Formal announcement of the engagement is to be made at Brussels by the Duke of Guise. The villa in Rome of the Dowager Queen Olga of Greece is being fitted up for the occupancy of the newlyweds upon their return from their wedding trip.

Princess Francoise visited Rome a few days ago with her aunt, the Duchess of Aosta, and stayed quietly at the Hotel Flora. The engagement was concluded there, but Prince Christopher did not wish to announce it formally until he had seen the Duke of Guise.

Prince Christopher is a brother of the late King Constantine of Greece and was born at St. Petersburg (now Leningrad) on July 29, 1888. He married Mrs. W. R. Leeds, widow of the late plain manufacturer, in February, 1920. She died in London in August, 1922. William Leeds, her son by her first marriage, married Princess Zena of Russia in October, 1921.

Princess Francoise is the second daughter of the Duke of Guise and was born at Paris on Christmas Day, 1902.

EARNINGS OF CROWN PAPER UP

Third-Quarter Figures
Reported \$270,634 Over
Similar 1927 Period

SAN FRANCISCO, Oct. 28. (Exclusive)—Despite a material reduction in the price of paper products and a general curtailment of business, Crown Williamette Paper Company was able to show an excellent earnings report for the third quarter of 1928. Net earnings, after all charges, totaled \$243,976, a sharp gain over the \$97,759 for the same period of last year and a healthy increase over the \$732,542 of the second quarter of this year. President Louis Bloch accredited the showing to introduction of intensive operating economies and expansion of the company's distribution field.

"The benefits which we anticipate will accrue from the recent formation and organization of the Crown Williamette Corporation have not as yet affected the operations of the Crown Williamette Company and we anticipate that these favorable results will not commence until after the beginning of next year, but that they are certain and very material," stated President Bloch.

As a result of the third-quarter increase, together with higher profits for Pacific mills, the consolidated earnings for the three quarters of 1928 stand at \$2,690,538 as against \$2,508,487 made during the same period of 1927.

Current position of the company has greatly improved. Ratio of current assets to current liabilities is now 5 1/2 to 1 as against 3 3/4 to 1 at the end of June. Book value of the common stock is now \$10.75 per share as against approximately \$19 at the end of June.

Australians on Hop to London

SYDNEY (N. S. W.) Oct. 28. (AP)—Capt. Frank Hurley, Australian explorer, and Flying Officer Molr started today in the Spirit of Australia, in an attempt to fly to England and back to Australia. The Spirit of Australia is the sister plane to Col. Charles A. Lindbergh's Spirit of St. Louis.

The aviators purpose to fly in stages of about 1,000 miles, and hope to reach London in twelve days, visiting the capitals of Europe. The entire round trip is about 23,000 miles.

The venture is being financed by public subscription, \$50,000 having been already raised.

Laborite Wins in British Vote

ASHTON-UNDER-LYNE (Lancashire, Eng.) Oct. 28. (AP)—Albert Bellamy, Laborite, today won a clear victory in the bye-election here and captured the seat last held by a conservative. He polled 9507 votes as compared with 7161 votes for Jordan C. Toombs, Conservative, and 6974 for W. Gilbert Greenwood, Liberal.

UNITED ACTION URGED ON WATER PROBLEMS

SALT LAKE CITY, Oct. 28. (AP)—Concerted action by Western States toward solution of their common water problems was urged in an address by George W. Malone, State Engineer of Nevada, temporary president of the Association of Western States Engineers, which met in its first annual convention here today.

Twenty-five engineers, representing Arizona, California, Utah, Kansas, Nebraska, Nevada, North Dakota, Oregon, Texas and Wyoming, were present. The organization was formed last year at Denver, at a conference of Western States on Colorado River development.

Mr. Malone declared that whenever the West as a whole agreed upon any matter of legislation it has been successful and urged that agreement upon their water problems would be a strong influence in the progress of this region. H. T. Harding, a California delegate, read a paper prepared by Harold Conklin, a water expert of that State, on State control and protection of underground water supplies.

FIRE-BATTLERS NURSE WOUNDS

Bakersfield and Fresno
Proud of Fighters

Almost Whole Local Force
Sustains Injuries

Raisin City Smoke Eaters
Give Great Service

BAKERSFIELD, Oct. 28.—Battling flames, smoke and falling timbers as they risked their lives to save this city's business district from the fire which ravaged half of the Twentieth-street block on Chester avenue yesterday, more than twenty-five local fire fighters and three men of the Fresno department were overcome by smoke and gas, or were bruised, battered and cut.

Such was the report compiled here today from the records of hospitals and the fire department as work was started to clear away the wreckage of seven business establishments which were caught in the path of the flames.

Five local firemen, still are in hospitals undergoing treatment for injured lungs and eyes. Seven altogether were admitted to hospitals and kept there until today. Several others were revived and sent back to battle the flames. More than a dozen were "laid out" and revived again at the scene of the conflagration.

Of the three Fresno firemen rendered unconscious during the day of fire fighting, the names of two are known here. They are Charles (Crock) Hansen and Roy Leacy. Hansen, in addition to being overcome by smoke, ripped his thigh on a nail, according to report from the San Joaquin Hospital, where he was under treatment last night.

At the San Joaquin Hospital, E. S. McCullough, E. L. Howe, A. C. Stephenson and Frank Lowrey still are under the care of a physician. Stephenson with his eyes injured by cinders and his lungs irritated by smoke, it is the most painful, hospital attendance reported.

Nelson Woods also of the Bakersfield fire brigade, is at the Mercy Hospital. His eyes were badly hurt by smoke and cinders, it was reported.

O. H. Gilbert and H. G. Anderson, local firemen, were taken to the San Joaquin Hospital Sunday and released today, and four other firemen, Joe Perry, Fred Reed, L. W. Allen and Frank Burk, were treated at their homes.

BUDGET HELP

Whether a modern housewife or business woman, your system of budgeting is incomplete unless a checking account—the correct vehicle for expenditures—is its foundation.

The Seaboard National Bank, in addition to providing attractive check books and deposit books, renders a service to its feminine clientele that is of genuine assistance in the management of their financial problems.

CALIFORNIA PARTY LEADERS
BOTH PREDICT STATE VICTORY

SAN FRANCISCO, Oct. 26. (P)—
Rival campaign managers in California
claimed the State for their
candidates in statements issued
today.

H. H. McPhee, chairman of the
Democratic State Central Committee
said Gov. Smith, the Democratic
nominee, will carry Northern and Central California,
and the Tehachapi, with a
majority of more than 50,000,
and had an excellent opportunity
of success in the southern counties.

After his St. Louis speech the
candidate Friday night will move across
Missouri and on the following day
will be in St. Louis. He will
make his last address in the
State of Kansas to Colorado. His
fourth speech on the cross-country
trip will be made at Pueblo, Colo.,
on Saturday.

He will board his train again after
this address and, crossing into Utah
that night, will move northward
through Salt Lake City to Ogden.
Sunday night will find him speeding
into Nevada and on the day before
election he will arrive at his home
at Palo Alto. That night he will
make his last address of the cam-
paign in an appeal broadcast to the
voters of the country from the study
of his home on Stanford University
campus.

MRS. HOOVER CALLS
AT HEADQUARTERS
WASHINGTON, Oct. 26. (P)—
Mrs. Herbert Hoover made an im-
portant visit to Republican head-
quarters today to thank the women
who have worked there in the in-
terests of her husband's candidacy
for President.

"It is not a formal visit," she
said to the members of the hostess
committee who happened to be on
hand to greet her. "I happened to
see a friend who urged me to come
up and I was so glad of the op-
portunity because I wanted to
thank you all and I had never
been to the office before."

Mrs. Alvin T. Hart, national vice-
chairman, has returned to Ken-
tucky for the election, but Mrs.
Hoover was welcomed by Mrs. Ry-
der A. Closson, chairman of the
hostess committee, and several
Cabinet wives who have served at
headquarters during the campaign.

A small reception developed for
the candidate's wife as Mrs. Davis,
wife of the Secretary of Labor,
Mrs. MacCraw, wife of the
assistant Secretary of Commerce
for aviation, and Mrs. Bartlett,
wife of the assistant Postmaster-
General, were joined by Mrs. Jane
Henry Large, Mrs. Hoover's sister
from Palo Alto; Mrs. Wilbur, wife
of the Secretary of the Navy, and
Mrs. Steel, Republican national
committeewoman for the District
of Columbia.

Chairman Schurz and
Herrick, home from their respective
posts in Berlin and Paris, also
joined the informal reception.
Both Ambassadors complimenting
Mrs. Hoover on her husband's
experience in international
affairs.

Followed by the group, Mrs.
Hoover visited every office of both
the men's and women's divisions at
headquarters. She shook hands
cordially with division heads and
stenographic force and with the
members of the colored division on
the ground floor. Accompanied by
Chairman Work she then visited
the radio, motion-picture and for-
eign language sections in a near-by
office building.

Critic of Smith
Stands by Guns
LITTLE ROCK (Ark.) Oct. 26. (P)—
James H. Comer, Grand Dragon of
the Arkansas Realm of the Ku Klux
Klan, who was criticized by Gov.
Smith in his Oklahoma City speech
a month ago, today made public a
letter he said he had sent to Gov.
Smith outlining his reasons for op-
posing his election to the Presi-
dency.

Comer was criticized by the
Democratic Presidential candidate
for writing a letter to a delegate to
the Houston convention asking the
delegate to oppose Smith's nomi-
nation because he is a Catholic.

In his letter to Gov. Smith Com-
er admitted writing the letter and
reiterated his opposition to Smith
because of his religion.

HUGHES AND
KELLOGG ON
AIR TONIGHT

Talks in Hoover's Behalf
Will be Broadcast Over
Radio Chain Hook-ups

WASHINGTON, Oct. 26. (Exclu-
sive)—Two outstanding figures in
the international relations of the
United States, Charles Evans
Hughes, former Secretary of State,
and the present Secretary of State,
Frank B. Kellogg, will be heard in
the Republican National Com-
mittee's radio program tomorrow night.

Secretary Kellogg, speaking over
the Columbia network to the Pacific
Coast, will talk on "Mr. Hoover's
Candidate in Connection with the
Policies of the Administration." He
will be heard from 8:30 to 9 o'clock,
eastern standard time, or 5:30 to 6
o'clock Pacific Coast time.

Mr. Hughes' speech will be
heard in connection with a Republi-
can rally in Mechanics Hall,
Worcester, Mass. He will speak at
10 o'clock, eastern standard time—
7 o'clock Pacific Coast time—over
the National Broadcasting Company
chain to the Coast. Mr. Hughes' ap-
pearance is in honor of his previous
appearances in behalf of
Mr. Hoover have led to widespread
demands from radio listeners for
further speeches.

An address by Senator Borah of
Idaho in Baltimore will go on the
air Wednesday at 8 o'clock eastern
time.

TOO GREAT
CONFIDENCE
HOLDS PERIL

Joseph Scott, Returning
from East, Warns G.O.P.
Against Let-down

Republicans, beware of overcon-
fidence! This was the warning
brought back to Los Angeles yester-
day by Joseph Scott, prominent
local attorney and the man who
sounded the nomination of Herbert
Hoover as the Republican candi-
date at the Kansas City con-
vention.

Scott, who made fifteen addresses
for Hoover throughout New En-
gland, Pennsylvania and Illinois,
declared upon his return yesterday
that "there is no disguising Smith's
capacity as a campaign attraction;
this being his twenty-sixth cam-
paign and Hoover's first."

"Nevertheless, Hoover's kindly
spirit and his temperate language in
his addresses have done a great deal
to swing the tide of sentiment fur-
ther to his favor," Scott continued.
"I saw him in Washington last
week after his New York speech,
looking well and optimistic, and
urging his friends in California to
keep up their good work consistently
to the end."

The importance of the women's
vote to the Republican party No-
vember 6 will be one of the out-
standing developments of the bal-
loting, Scott predicted.

"The campaign in the East has
been a description for excitement and
intensity and universal attention,"
he said. "People are neglecting their
business, and the women, particu-
larly, are showing activity which
is beyond precedent in the history
of the oldest observance."

Scott declared he found enthusi-
asm and sympathetic audiences
everywhere he spoke, with the ex-
ception of in Boston, the Demo-
cratic stronghold in Massachusetts.

Recognition of the fact that the
opposition to Tammany is nation-
wide in the Democratic party, and
not confined alone to the South, is
contained in a letter received yester-
day by Thomas J. Mannix of the
Department of Building and Safety
from George F. Milton, publisher of
the Chattanooga News.

Mr. Milton and the News always
have been Democratic until the
nomination of Gov. Smith occasioned
the "revolt." Mr. Milton's
letter, in part, is as follows:

"This revolt is not confined to
the South; this spirit animating the
younger Democrats is evident in all
sections of the country. It is a
hopeful omen of the recapture of
the party of Jefferson, Jackson and
Wilson from the hands of the heirs
of Murphy, Croker and Tweed."

However, any faculty member may
indorse when he pleases as a private
citizen, the president pointed out.

INVENTOR SUES IDAHO
Action Filed in Boise Against State
Asks for \$2,000,000

BOISE (Idaho) Oct. 26. (P)—The
State of Idaho today was asked to
pay \$2,000,000 because it "ma-
liciously" issued "certificates of title"
and "certificates of ownership" to
owners of automobiles applying for
licenses.

The charge was made against the
State and more than a score of
other States by Cecil L. Snyder, who
represents himself as trustee of a
Detroit company who, he said, has
a patent and a copyright on the
certificates, and is in the habit of
charging \$3 for them.

The Attorney-General's office
pointed out that abstracts and cer-
tificates of title have been in use
for a greater length of time than the
Detroit company has been in existence.

LOUISIANA SLAYERS
LOSE REPEAL PLEA

WASHINGTON, Oct. 26. (P)—The
Supreme Court turned thumbs down
today on the final appeal of Mrs.
Ada Bonner Le Bouef and Dr. T. E.
Dreher, under sentence to be hanged
for murdering the woman's hus-
band, James L. Le Bouef, in St.
Mary's Parish, Louisiana. The
court, after a review of their con-
viction, but the court found no rea-
son for such action. James Beadle,
convicted with them and sentenced
to life imprisonment, did not seek
an appeal.

THOUSANDS OF SPEECHES MADE
BY REPUBLICANS DURING MONTH

CHICAGO, Oct. 26. (P)—More
than 2000 Republican campaign
speeches have been delivered since
the 1st inst., in twenty-eight West-
ern and Southern States. It was
announced today by Representative
Newton, director of the speakers' bureau of the Republican National
Committee.

The pin-pointed map in Mr.
Newton's office indicates that the
speech making has been concen-
trated in Wisconsin, Minnesota,
Iowa, Missouri, Kentucky, Tennes-
see, the Dakotas and Nebraska.
Greater clusters of pins have been
added within the past few days to
Wisconsin and Minnesota.

More than 3000 speeches have
been made since the 1st inst. in
Iowa alone. Approximately 800
addresses were delivered in Min-
nesota and Wisconsin, where the
party's "heavy artillery" has been
concentrated. Those who have spoken
in those States include Senators
Curtis, Borah, Capper, Watson and
Stewart, Col. Theodore Roosevelt,
the Governors or former Governors
of several States, and numerous
others.

Mr. Newton will leave his desk
tonight to conduct a speaking tour
of his own State, Minnesota.

standard time—8 o'clock Pacific
Coast time—over the National
Broadcasting Company's network.

FLAMES DESTROY
RESORT COTTAGE

SANTA ROSA, Oct. 26. (P)—Fire,
believed to be incendiary, destroyed
nine cottages and furnishings in a
spectacular blaze at the Camp
Meeker resort colony of the Rus-
sian River district today. The fire
for five hours threatened all cot-
tages and summer homes in the
camp. For several hours it was
feared it would spread into the
Sheriff's deputies searched the
district for the man suspected of
being the arsonist.

SMITH HELD
'IMPOSSIBLE'
FOR FARMER

Senator Brookhart Says
New Yorker Has Opposed
Agricultural Interests

SPARTA (Wis.) Oct. 26. (P)—
Senator Brookhart of Iowa in a
speech here today declared Gov.
Smith is "impossible" and said his
progressive colleague, Senator Nor-
ris, had made a "mistake" in declar-
ing for the Democratic candidate.

"I have no doubt he will realize
his mistake in due time," said Sen-
ator Brookhart, who will make sev-
eral speeches for Herbert Hoover in
Wisconsin this week.

"I feel perfectly comfortable sup-
porting Hoover, along with other
progressive Senators, Howell, Fran-
ker, Borah, Rye, Johnson, McMan-
ster and Norbeck, and I hope Sen-
ator Norris feels just as comforta-
ble in the more intemperate company
of Senator Haines."

"Gov. Smith is impossible from
the farmer's standpoint. As Gov-
ernor he has opposed the farmers
of New York in nearly everything
they wanted. He has reduced their
prices and driven them from the
control of the State Department of
Agriculture. He never has had
their support and they will vote
against him in the Presidential elec-
tion."

Modern housekeepers demand
perfect refrigeration

With the demands on a woman's time
these days and the varied interests which
engross her, matters of home manage-
ment must be run with as little fuss and
bother as possible. Refrigeration, for ex-
ample, must be absolutely automatic,
completely efficient.

The General Electric Refrigerator op-
erates so automatically that you never
even have to oil it. It is unusually quiet,
makes plenty of ice and uses little cur-
rent. It is "years ahead" in design be-

cause all its machinery is enclosed in an
air-tight steel casing, mounted on top.
It provides the perfect refrigeration
which is now recognized as a year-
round necessity for health-protection.
The General Electric Refrigerator is
most sanitary. Dust is kept from settling
on the top because there is a constant
gentle upward current of air.
Come in today and see the many models.
You can buy yours on a deferred pay-
ment plan, if you wish.

LOS ANGELES HARBOR

SHIP LINE SETS TONNAGE MARK

Cargo Figures of McCormick
Line Given Out

October Total Handled Held
Best on Record

Terminal Volume Revealed
in Extension Plea

Another cargo record will go by the board at the harbor tomorrow, when the McCormick Steamship Company terminals will have handled during October fifty-two vessels, with a cargo total of 25,500 tons. M. A. Bichley, terminal superintendent, announced that the McCormick line's history, while it is also believed to set a new high mark at the port for a single company.

This great flood of freight traffic was revealed in connection with the application to the Harbor Board by the McCormick Line for extension of berth 178 to shore line, that the company's present facilities might be enlarged to meet growing demands. Last week five ships were at one time working cargo at the terminal, while Mr. Bichley declares that future traffic will hold at the same high level.

Yesterday, three McCormick liners were in port: the Sydney, N. Hauptmann, discharging 400 tons from Baltimore and Philadelphia; the Catherine G. Rodden, discharging 1200 tons from Portland, and the Munson, loading 500 tons for the north, the terminals thus handling 111 tons of freight in the forty-eight hours ending tonight.

Four San Francisco executives of the McCormick Line will arrive at the harbor Saturday for a three-day inspection of the company's Southern California establishment. They are J. C. Strickland, freight manager; J. A. Lunny, operating manager; M. C. Darr, auditor, and Gene Batelle, auditor of the Redwood Line.

A total of 48,282 tons of cargo has been handled in and out of Los Angeles Harbor by the oriental half of the Oceanic and Oriental Lines since the fleet was taken over last May 1, it was announced yesterday by W. W. Stewart, terminal superintendent of the American-Wholesale Line, operating manager of the Pacific-Ocean service.

Of this total 27,777 tons was outward freight, leaving a remainder of 20,505 tons for homeward cargo. Outbound, the chief commodities are case oil and canned goods; homeward, they are hardwood lumber, rubber and bean and coffee.

The O. & O. liner Golden Wall is now in port loading out 140 tons for Chinese ports, including 91,000 cases of gasoline and 140 tons of coal for the Imperial Japanese navy.

The State Railroad Commission will hear the petition of the McRoy Engineering Construction Com-

pany to build a six-story warehouse at San Pedro in a session at the San Pedro Chamber of Commerce on November 15, next. The firm proposes to build a Class A structure, costing about \$1,000,000, with refrigeration facilities and for storage of perishable products and other high-class commodities. The building's construction was at first opposed by the Board of Harbor Commissioners, but at the meeting of the 24th last, the board gave its unanimous approval of the project.

The Los Angeles Compress and Warehouse Company had its biggest day of the present cotton season yesterday, handling more than 2000 bales. At one time twenty-seven trucks from San Joaquin Valley fields were lined up at the warehouse awaiting discharge. Officials of the company predicted that more than 200,000 bales of cotton will be exported to the Orient and Europe this season, an increase of 150 per cent over 1934.

On her maiden visit to this port, the French liner, Motoriste, is due from Rouen on November 3 to load 62,400 barrels of gasoline for Bordeaux and La Pallice. She is owned by the Compagnie Industrielle des Petroles and is under charter to the Sinclair Refining Company. Another new tanker on the Coast is the American steamer Motoriste, due at San Diego on November 5 with a cargo of crocodile from Cardif, Wales. W. H. Wickham is Coast agent for both vessels.

Coch Howard Jones, with Hunter, athletic director, and members of the U.S.O. variety squad, were the guests at the Alexandria last night of the Hall and Water Club. President W. B. Windle presided at the meeting, while the chief address was made by Howard McKay, director of the Advertising Club of Los Angeles.

The Furness-Petroleum motor liner Pacific Ballerina arrived from the United Kingdom yesterday with 2000 tons of freight and the following cabin passengers: W. O. Bell, American steamer Motoriste; Mrs. Lawrence, Katherine Mackay and Jane Mackay and Mr. and Mrs. Pierre G. Shaw.

Are You Keeping Pace with this Changing World?

"See You Next Saturday—in Hongkong"

When land-walking humans, seated in a great three-motored airplane, can fly over the Golden Gate—make jaunty stops at Honolulu and the Fiji Islands—later dropping in upon our near-door neighbors, the Antipodes—who shall say that a week-end rendezvous in Hongkong, for any two of us, is far remote?

And who shall dare to place a limit on the expansion of industry and commerce destined to be born of such adventures across the skies?

Swiftly—even incredibly—the business world is changing. Wings lending speed to mail and freight. America and Europe trading with each other by long-distance telephone. Important sales announcements broadcast in the twinkling of an eye to thirty million people. How will such far-reaching changes affect present-day investment values?

Never a time when the investor, seeking to place accumulated funds back of enterprises destined to survive and prosper, has so needed the counsel of an experienced investment house.

Never a time when it has proved so profitable to obtain the viewpoint of a house which has participated intimately in America's prosperity.

For nearly half a century the house of S. W. Straus & Co. has guided men and women seeking to build and make secure their fortunes. Its record eminently proves its judgment worthy of your trust.

The bonds it offers—real estate, public utility, industrial and foreign—represent, in the judgment of this house, the most attractive values in the present market. They afford wide diversification, ample safety, excellent return.

As an investor, you will find real help in the booklet, "Investing for Safety," gladly mailed you on request. Simply ask for booklet: 1-1

ESTABLISHED IN 1883

One of the Foremost Eastern Bankers Tells Why He Bought in Bel-Air

IN ANSWER to your inquiry as to why I selected the acreage in Bel-Air and determined to purchase it, I might say that I have for many years looked upon that particular section of Southern California as being one of the choicest, if not the choicest place, for those who love the outdoors, the sunshine and the all-year-round temperate climate which Southern California so well affords. The views too, from Bel-Air, situated as it is on the Pacific side of the Santa Monica Range, appealed to me as being little short of wonderful and certainly most fascinating; the Pacific Ocean and

Catalina in one direction, the snow-capped mountains in another, the Canyon views of the adjacent mountains in still another, to say nothing of the spread of the constantly expanding growth towards the sea of the western part of the city down below it. It is no exaggeration to say that I confidently look forward to the time in the not very distant future when that particular locality will become the principal residential section of Los Angeles and basing my judgment on my travels through many countries, I know of no place in any country that in my opinion is comparable to it.

500,000 Shares

United States & International Securities Corporation

First Preferred Stock

Cumulative Dividends, \$5 a Share per Annum

(With Common Stock, and Common Stock Subscription Warrants)

Offered in the form of Allotment Certificates

Shares without nominal or par value. Entitled to \$100 a share and accrued dividends in event of liquidation. Redeemable, as a whole or in part, upon 30 days' notice, at \$105 a share and accrued dividends. Dividends payable quarterly on February 1, May 1, August 1 and November 1. Dividends free of present normal Federal income tax. Registrars: The Chase National Bank of New York; The National Bank of Boston; Transfer Agents: Central Union Trust Company of New York; The First National Bank of Boston.

Each share of First Preferred Stock offered will carry one share of common stock. In addition, each certificate of First Preferred Stock will carry a subscription warrant (non-detachable, except as stated below) entitling the holder to subscribe for common stock of the company at \$25 a share, in the ratio of one share of common stock for each share of First Preferred Stock represented by such certificate.

The following information has been furnished by Mr. Ernest B. Tracy, President of United States & International Securities Corporation:

United States & International Securities Corporation has been formed under the laws of Maryland to buy, sell underwrite, offer and generally to deal in, corporation, Governmental and other securities, both American and foreign, and to take part in the organization, reorganization and operation of corporations. The company may extend its operations by issuing its own obligations.

CAPITALIZATION

The capitalization of United States & International Securities Corporation is as follows:

	Authorized	To be Issued
First Preferred Stock (80 Cumulative Dividend)	500,000 Shares	500,000 Shares
(Now offered under Allotment Certificates)		
Second Preferred Stock (80 Cumulative Dividend—without par value; entitled to \$100 a share and accrued dividends in liquidation)	100,000 Shares	100,000 Shares
(Purchased for cash by United States & International Securities Corporation and associates)		
Common Stock (without par value)	8,000,000 Shares	2,900,000 Shares
(Of the 2,900,000 shares of common stock to be issued, 800,000 shares are to go with the First Preferred Stock, and the balance with the Second Preferred Stock. The 800,000 shares authorized but not presently to be issued are reserved against subscription warrants issued with the First Preferred Stock)		

JUNIOR CAPITAL

The company has received in cash \$10,000,000, which is equivalent to \$100 a share for the Second Preferred Stock, the entire amount of which is owned by United States & International Securities Corporation, excepting such amounts as have been purchased by certain members of the board of directors.

DIRECTORS

The management of the company is closely affiliated with that of United States & International Securities Corporation. The board of directors is as follows:

Mr. Walter P. Chrysler	Mr. S. Z. Mitchell
Mr. Clarence Dillon	Mr. George M. Moffett
Mr. Charles Hayden	Mr. Matthew S. Sloan
Mr. Dean Mathey	Mr. Ernest B. Tracy

PROVISIONS OF FIRST PREFERRED STOCK

The First Preferred Stock has preference over the other classes of stock as to dividends, and as to assets in event of liquidation. It is entitled to dividends at the rate of \$5 a share per annum, cumulative from November 1, 1928. The First Preferred Stock is redeemable, as a whole or in part, upon 30 days' notice, at \$105 a share and accrued dividends.

COMMON STOCK AND SUBSCRIPTION WARRANTS

Each share of First Preferred Stock offered will carry one share of common stock. In addition, each certificate of First Preferred Stock will carry a subscription warrant entitling the holder to subscribe for common stock of the company at \$25 a share, in the ratio of one share of common stock for each share of First Preferred Stock represented by such certificate.

The warrants are to be non-detachable, unless made detachable by resolution of the board of directors of the company. In the event of redemption of the First Preferred Stock, the warrants will be detachable and will continue in force for five years after such redemption date.

PAYMENTS AND ALLOTMENT CERTIFICATES

Payments will be called for as follows: 25% on delivery, subsequent calls to be made at intervals of not less than three months and no single call to be for more than 25% of the allotment price named below. Purchasers have the option, however, to make payments in full on any First Preferred Stock dividend payment date. Allotment Certificates of the company will be deliverable on or about November 5, 1928. Holders of these Certificates will be entitled to receive currently or dividends in proportion to payments made on the allotment price called for by the Certificates. Upon payment of the entire allotment price holders will be entitled to subsequent dividends in full, and on November 1, 1930 (or earlier at the option of the company) to receive certificates for the First Preferred Stock (with subscription warrants, as stated above) and common stock called for by the Allotment Certificates.

We offer this stock in the form of Allotment Certificates.

Varities Burbank, Sixth and Main—Burbank.

Follies, Fourth and Main—Burbank.

Orpheum, Ninth and Broadway—Max Fleber.

Millaret, Eighth and Hill—"The Crash."

Pantages, Seventh and Hill—"Ole Tom's Cabin."

Dry Pose Jails Former Editor

SAN FRANCISCO, Oct. 20. (P)—Alfred Lindsey, former editor of the Humboldt News, a weekly newspaper published at Eureka, was arrested here today by Federal agents on a charge of impersonating a prohibition agent and accepting \$100 for "protection" he promised to a cafe in the Latin quarter.

When the money was passed W. R. Pagen, assistant to the prohibition administrator, and two other officers stepped from behind a screen and placed Lindsey under arrest.

WIDOW OF PHOENIX PHYSICIAN KILLED

PHOENIX, Oct. 20. (P)—Mrs. Robert Eaton, wife of a Phoenix physician, who was burned to death about one year ago in an accidental explosion of a can of fluid at his home here, was killed this morning when her touring car side-swiped another machine and turned over on the Tempe road six miles east of this city.

THE WEATHER
(Continued)

LOCAL OFFICE, U. S. WEATHER BUREAU, Los Angeles, Oct. 20. (Reported by H. H. Harvey, Meteorologist.) At 5 o'clock a.m., 20.94. Thermometer for the corresponding hours showed 54.00 and 60.00. Relative humidity, 5 a.m., 65 per cent; 6 p.m., 60 per cent. Wind 5 a.m., east, velocity 3 miles; 5 p.m., southeast, velocity 3 miles. Temperature, highest, 80.00; lowest, 53.00. Rainfall for season, .39 of an inch; normal to date, .39 of an inch; last season to date, .49 of an inch. Barometer reduced to sea level.

WEATHER CONDITIONS.—Oct. 20: Light to moderate rains have fallen during the past twenty-four hours on the New England coast and in the Southern Plains States, the southern portion of the Rocky Mountain section and on the North Pacific Coast, with light snow in Nebraska and in Upper Michigan. A strong field of high pressure covers the central portion of the country from the Rocky Mountains to the Gulf of Mexico. The weather is generally clear and pleasant, with a few scattered clouds in the morning. A cold front is moving across the country from the north, bringing with it a change in the weather. A strong field of high pressure covers the central portion of the country from the Rocky Mountains to the Gulf of Mexico. The weather is generally clear and pleasant, with a few scattered clouds in the morning. A cold front is moving across the country from the north, bringing with it a change in the weather.

SUN, MOON AND TIDES.—Los Angeles, Oct. 20: Sun rises 6:11 a.m., sets 5:33 p.m. Moon rises 4:21 p.m., sets 1:15 a.m. Los Angeles Harbor, Oct. 20: High tide, 9:41 a.m., 11:51 a.m., 10:18 p.m.; low tide, 4:41 a.m., 4:41 p.m.

MORNING.

BOL FIREBUG
AND AS INSANE

Manual Arts
School Sent to Asylum

Also Confesses to
Writing Fright Notes

Lightning Years Ago
Blamed for Acts

That he set fire to Manual Arts High School on Oct. 1, also was the author of the letters that kept the teachers in a state of alarm in a room of the school in the morning of Oct. 1, 1937, when the school was closed for several months. Franklin, 21 years of age, yesterday was committed to the insane by Superior Judge Price and is being held pending the lunacy commission.

Under the lunacy commission, the psychopathic court, which has jurisdiction of the insane, found that the defendant was a person of unsound mind at the time of the fire and is now a person of unsound mind.

Franklin, who was a student at Manual Arts High School, was committed to the insane by Superior Judge Price and is being held pending the lunacy commission.

SECOND CHILDHOOD
THRUST ON ACTRESS

Dorothy Janis

LAW MAKES
FILM FIGURE
CHILD AGAIN

Dorothy Janis, Player in
Own Right, Infant Once
More by Legal Quirk

Dorothy Janis, film actress, although she is not yet 21 years of age, is experiencing her second childhood, so to speak. This extraordinary circumstance became known yesterday when, in proceedings before Presiding Judge Hahn her mother, Penelope Mann Jones, was appointed her guardian.

When Miss Janis arrived at the age of 18 she attained her majority, as the law then stood. Then the solemnities of matrimony were performed and she became the wife of a man who was not yet 21 years of age.

As a picture actress Miss Janis has financial affairs and contracts to sign and other business that can be handled only by a legal adult or a guardian. So she had her mother appointed. Her attorney, D. P. Covert, hurried that matter through for her yesterday because she was to leave today for Haiti, where she will work with Ramon Novarro in "The Fagan."

All the officers of Port MacArthur and at least twenty-two of the fleet with Rear Admiral Kittelle at their head will participate. As many bluejackets as may be spared from the ships in the harbor will be present, while virtually all the soldiers at Port MacArthur and the San Pedro American Legion Band will form a named organization and buglers from both the Tennessee and Port MacArthur will participate.

All American Legion posts in the harbor district including Long Beach will be present in a body as will other posts in Southern California. The United Spanish American War Veterans will be present.

It is expected that the tables of the Army and Navy with Red Cross nurses and the veterans of the various wars will be a strikingly impressive picture.

Mr. Louhead is making this tour to appoint territorial distributors and dealers for Lockheed aircraft in all sections of the country.

Discussing the manufacture and distribution of commercial aircraft, Mr. Louhead stated that for the first time since World War I, the production facilities at the Lockheed aircraft factory at Burbank have been sufficiently increased to insure reasonably prompt delivery on both the Wasp and Whirlwind-Vega models, and the Wasp-Air Express.

Gen. Van Deman Reserves' Guest

Brig.-Gen. Ralph H. Van Deman, chief of staff of the Organized Reserve in Southern California, will be guest of honor Friday evening at a dinner meeting of Los Angeles chapter, Reserve Officers' Association, at the Alhambra.

Plans for the inactive duty training of reserve officers of the United States Army will be discussed by Gen. Van Deman; who is stationed at San Diego. Other speakers will include James F. J. Archibald, war correspondent of some twenty odd campaigns, who was the first American wounded in the Spanish-American War; Cadet Major Leslie Knudsen, president of the Junior R.O.T.C. graduates; H. L. Emerson, editor of the Bear Cat of the Citizens' Military Training Camp, Del Monte, organizer of a local C.M.T.C. club, and Capt. Ernest F. Hanson, State president of the California Department, Reserve Officers' Association.

Mrs. Clara Shortridge Foltz of 115 South Normandie avenue, altrove, was elected unanimously vice-president for California of the National Association of Women Lawyers, at the national convention of that association recently at Atlantic City.

A message apprising Mrs. Foltz of her election was received yesterday from Grace Rohleder, corresponding secretary. When not busy at the courts Mrs. Foltz is devoting her time to work for the election of Hoover.

BOTTLE CAP
DEVICE GETS
INTO COURT

Brother Sues Family for
Share of Profits Made
From Stopper Machine

A court fight between three brothers and their father over the proceeds derived from a machine for making the tops for milk bottles was begun yesterday before Superior Judge Price and will continue today.

The suit is brought by John Towy against his two brothers, George and Nicholas Towy, and his father, Alexander Towy. It asks a dissolution of partnership, an accounting and receivership.

John Towy in his complaint sets up that he owns a one-fourth interest in the California Bottle Cap Company, a concern worth \$40,000. He accuses his father and brothers of refusing to give him his share of the company.

The defendants deny the accusations, declaring the plaintiff did not own any part of the company when it was formed; that he merely was employed by his father. They assert John took certain parts of the machine and kept them until he was given an interest in the company.

They assert there is no necessity for an accounting and a receiver, and ask that the court take no cognizance of the suit.

MME. YAW
TO SING FOR
GREAT FETE

Armistice Day's Sunday
Observance Expected to Be
Spectacular

Mme. Ellen Beach Yaw, Southern California soprano, will be the soloist of the military field vesper service to be held at Trona Field in San Pedro on the afternoon of Armistice Sunday, November 11, under the auspices of the American Legion.

The impressive ceremony will be unique in America. Commander M. H. Petzold, chaplain of the U.S. Army, will officiate. Lieut. V. H. Morgan, chaplain of the U.S. Navy, and Chaplain Thomas of Port MacArthur are arranging the program.

All the officers of Port MacArthur and at least twenty-two of the fleet with Rear Admiral Kittelle at their head will participate. As many bluejackets as may be spared from the ships in the harbor will be present, while virtually all the soldiers at Port MacArthur and the San Pedro American Legion Band will form a named organization and buglers from both the Tennessee and Port MacArthur will participate.

All American Legion posts in the harbor district including Long Beach will be present in a body as will other posts in Southern California. The United Spanish American War Veterans will be present.

It is expected that the tables of the Army and Navy with Red Cross nurses and the veterans of the various wars will be a strikingly impressive picture.

Mr. Louhead is making this tour to appoint territorial distributors and dealers for Lockheed aircraft in all sections of the country.

Discussing the manufacture and distribution of commercial aircraft, Mr. Louhead stated that for the first time since World War I, the production facilities at the Lockheed aircraft factory at Burbank have been sufficiently increased to insure reasonably prompt delivery on both the Wasp and Whirlwind-Vega models, and the Wasp-Air Express.

Gen. Van Deman Reserves' Guest

Brig.-Gen. Ralph H. Van Deman, chief of staff of the Organized Reserve in Southern California, will be guest of honor Friday evening at a dinner meeting of Los Angeles chapter, Reserve Officers' Association, at the Alhambra.

Plans for the inactive duty training of reserve officers of the United States Army will be discussed by Gen. Van Deman; who is stationed at San Diego. Other speakers will include James F. J. Archibald, war correspondent of some twenty odd campaigns, who was the first American wounded in the Spanish-American War; Cadet Major Leslie Knudsen, president of the Junior R.O.T.C. graduates; H. L. Emerson, editor of the Bear Cat of the Citizens' Military Training Camp, Del Monte, organizer of a local C.M.T.C. club, and Capt. Ernest F. Hanson, State president of the California Department, Reserve Officers' Association.

HAND-MADE ARITHMETIC FOUND

But 2 and 2 Made 4 Even 137 Years Ago

Beauty Plus Learning Equals —?

Mary Ann Morrissey scans pages of textbook wrought in Virginia when printing press was few.

SYMBOLIC of the time when man could not have what he did not make himself, a hand-made arithmetic textbook, diligently fashioned 137 years ago by John Spillman of Culpepper county, Virginia, was brought to light recently by his descendants in Southern California.

Today it is a treasured possession of his great grandson, A. G. Spillman, of 1014 1/2 Lockwood avenue, Inglewood.

Hand-tanned leather covers, lined with hand-loom linen, bind the seventy-one parchment pages of the book. Each page is beautifully written by hand with a quill pen and bears the mark of such good quality that it has scarcely faded through the years. Elaborate flourishes, gracefully rounded curves and irreproachable shading embellish the perfectly outlined Spencerian characters, and effectively lift from this volume the stigma of dullness inherent in the average textbook.

The book was written and made by Mr. Spillman for the purpose of aiding the education of a nephew.

Loughead Hops on First Leg of National Tour

Allan H. Loughead, pioneer aviator and builder of the Lockheed Whirlwind-Vega monoplane, hopped off from the Lockheed airport at Burbank for El Paso, Tex., early Sunday morning.

He was accompanied by E. L. Hamilton, chief of the Lockheed Coast air-mail pilot, and Lieut. Normal S. Hall, executive secretary of Carl A. Bundy Quill & Co., advertising representatives of the Lockheed Aircraft Company.

Mr. Loughead is making this tour to appoint territorial distributors and dealers for Lockheed aircraft in all sections of the country.

Discussing the manufacture and distribution of commercial aircraft, Mr. Loughead stated that for the first time since World War I, the production facilities at the Lockheed aircraft factory at Burbank have been sufficiently increased to insure reasonably prompt delivery on both the Wasp and Whirlwind-Vega models, and the Wasp-Air Express.

SWEENEY BRIBE
TALE EXPLODED

Grand Jury Finds Nothing to
Substantiate Story

Public Officials Scored for
Accepting Favors

Individuals Named in Craft
Charges Exonerated

Charges of graft and corruption among Los Angeles city officials named by Edward E. Sweeney vanished in thin air yesterday as the Los Angeles county grand jury closed its investigation of the accusations with a report that it had been unable to find any evidence that warranted filing criminal charges against any of those named.

The investigation was brought about by Sweeney, former land and tax agent of the Southern California Gas Company, who was tried and convicted of forgery and grand theft in connection with the theft of approximately \$200,000 from his firm. He now is serving a term of from two to twenty-four years in San Quentin prison.

ACCUSED APPEAR

During the jury's probe of Sweeney's charges, all of those named by him voluntarily appeared before the inquisitorial body, bringing all their private records and opening their bank accounts for the jury's inspection. It was said by members of the jury.

A. B. McBeth, president of the Southern California Gas Company; L. E. Whitehead, assistant City Attorney; Dave Carroll, minute clerk of the City Council; Bert Farmer and Fred C. Wheeler, former City Councilmen, were absolved of any connections with Sweeney in a resolution made public by the jury.

PRACTICE CHARGED

The jury did, however, severely censure the practice of public officials accepting entertainment or favors from lobbyists.

During his trial Sweeney set up a defense that he had been given all of the money by his firm and had used it with the approval of his superiors to obtain favors from certain city officials.

The grand jury resolution follows: "Resolved, that the evidence produced before us in our investigation of the charges of the bribery of present and former city officials by Edward E. Sweeney does not warrant the voting of indictments against any of the persons named by Sweeney in his testimony during his recent trial in the Superior Court of this county."

In the opinion of this grand jury the practice of public officials accepting entertainment or anything of value from any person in a position to profit by their official acts is unethical and frequently leads to grave charges against such officials.

LIQUOR PARTIES TOLD

Sweeney has also charged that he had given numerous parties at which public officials were guests and at which liquor was provided.

Dep. Dist. Atty. Egan, at the close of the investigation, issued a statement concurring with that of the grand jury.

There was not enough evidence to warrant an indictment, he said. "The evidence indicated that Sweeney had converted the money in question to his own use and that it would have been a physical impossibility for any of this money to have been paid to public officials."

MEASURE UPLIFTED AND ASSEMBLED AT FORUM

Proposition No. 21, commonly known as the anti-rodco bill, is a tax on the use of automobiles which, if adopted, would hinder seriously the live-stock and cattle-raising business and put an end to horse shows and stock exhibitions. J. A. McNaughton, vice-president of the Los Angeles Union Stock Yards, declared last night at an open forum meeting of the City Club.

Present laws are sufficient to protect animals against cruelty if an enforcement program is carried out while the anti-rodco bill is subject to such broad interpretation that it might be construed to prohibit a horse or a teacher and lecturer, spoke for the measure. He described it as a moral issue and specific action to bolster up present laws.

Two-Orchestra Program Slated for Auto Salon

Two orchestras, rendering the newer melodies as well as popular favorites among the classics, will be among the entertainment features at the Fifth Annual Automobile Salon to be given by the Los Angeles Motor Car Dealers' Association at the Biltmore, the afternoons and evenings of November 6, to 8, next, inclusive. The orchestras will be those of Adolf Tandler and Louise Kline's Girls' String Ensemble.

Edisibly smart cars of every range of price, the newest models of the eastern factory output, are to be on display, Burt Roberts, salon manager, announced. The most modern of engineering advances, producing the maximum amount of smoothness, flexibility and power, as well as the latest body designs and interior appointments, will be shown.

The exhibit which will be free, is to be held in the new Sala de Oro and Galeria Real, with twice the number of showings of any previous year.

YOUR BABY AND MINE

Engagement Announced
Mrs. Kate Crane Garis gave a suitably appointed luncheon at her home, "The Cloister," in Altadena, Saturday afternoon, honoring Miss Olga von Toll, the occasion being to formally announce the betrothal of Miss von Toll to Morton Ward. Miss von Toll, who is graduated from University of California at Los Angeles, and is a daughter of the late Captain Garis, formerly of the U. S. Navy, is the daughter of Dr. and Mrs. Edward von Toll of Chicago and 3755 Boulder Road, Pasadena. Mr. Ward is a member of the faculty of California Institute of Technology in Pasadena and was formerly a resident of Pasadena. The decorations were carried out by Mrs. Garis.

The first tea of the season for all women at the University of Southern California was held in the Student Union Thursday afternoon, sponsored by the Women's Self-Government Association.

Entertainment under the direction of Miss Lorraine Neal included reading by Miss Elaine Buttride and two vocal solos by Miss Irene L. Smith, a member of the college of music. Pearl Aiken Smith of the school of speech and assistant dean of women, gave an informal talk. Faculty members and those invited were present.

GUIDING YOUR CHILD

LOVING PARENTS
By Mrs. Agnes Lyns

At a summer camp for little children the director dreaded nothing more as the days when certain rents came to visit.

Throughout the week the children played blithely in the grassy orchard, splashed merrily in the brook. They were busy from sunrise to sunset with all the things that should concern a child.

The director, a mother herself,

Sometimes these spines are very severe, and in the past many patients have died. In the early days, when the spines were evolved, such as blistering, cupping the skin, burning with a hot iron, etc., there was much more damage to the tissue than the benefits and relief to the patient. The spines are now made by the application of comforting heat and vibration to the vertebrae and ribs that are slightly out of position. Manipulation, or strengthening the spine by well-planned exercises. Most of the spine are due to improper feeding which deprived the child in its growing years of bone-building materials, such as calcium, braces and other mechanical supports for curvature of the spine is not advisable because this condition is usually a permanent one. It is a factor from the standpoint of permanent results with the methods which I have just outlined.

The value of the spine is described as follows: for strengthening the spine, the value of real and personal property of Hawaii has just been placed at \$200,533,000.

The reason is that these Moad people who are over fat have an under-active thyroid. That is the gland which largely controls metabolism, and if this deficiency is corrected, much food goes to fat.

Modern physicians, in treating obesity, almost at this condition, they try to correct it the chief factor used is Marmol.

Marmol, prescription tablets are made by a famous medical laboratory. The formula appears in every box, also the reason for results. Users know what they are taking and why.

When disease is discovered this method is used, the main factors were embodied in Marmol. That was over 30 years ago. Since then, people who were

Attorney Gerard Remington
Comteess of Chagaetti

COUNTRESS IN COURT OVER BOARD BILL

*Titled Woman Authorizes
Enters Not-Guilty Plea to
Charges by Hotel*

Appeared in court yesterday with her attorney, the Comteess of Chagaetti, sought on a bench warrant issued by Municipal Judge Bullock after she failed to appear for arraignment on Friday, last, on a charge of defrauding the Ambassador Hotel out of \$484 due for board and bills for the use of not guilty and demanded jury trial. Judge Thompson, sitting for Judge Bullock, transferred the case to Judge Reed's court, where date for trial will be set tomorrow.

The Comteess is an author and writer, according to a statement made to the court by her attorney, Gerard Remington, in a successful ploy to have the order issued by Judge Bullock forfeiting her \$1000 each bail set aside. He told Judge Thompson his client was too ill to appear in court on Friday and that she had attempted to communicate with him at the time. Remington's effort to have the new bail of \$1000 lowered was opposed by Deputy City Prosecutor John V. Walsh.

Judge Thompson allowed her to remain at \$1000, which was furnished.

EASTON LOSES SECOND ACTION

Demurrer Ends Suit Against O. F. Brant Estate
Statute of Limitations on Filing Case Cited
Plaintiff Asked Large Sum as Land Deal Share

E. E. Easton, who in 1924 began an unsuccessful suit that turned out to be a costly and time-consuming effort to obtain a huge sum of money from the O. F. Brant estate, yesterday lost his second attempt to win a fortune by suing in the matter.

In this action, wherein he sought about \$250,000 instead of the approximately \$1,000,000 in the first suit, Superior Judge McComb in effect found that regardless of the merit of Easton's claims, which Brant heirs and executor deny have any merit whatever, the time within which Easton legally could bring such action had passed and that is the end of it.

Easton set up that in 1917 he had transferred about 15,000 acres of Baja California lands to Brant on trust to sell, that Brant sold the property without paying him what was due, that Brant died and that a net of about \$350,000 on account of the deal had passed to Brant heirs. On this account he sued the executor and heirs for what he set up as coming to him, a claim denied by the executor and heirs.

In defense of the heirs attorneys Joseph L. Levinson and Pierce Works demurred that even if Easton's assertions were correct, which they denied, the expressed trust in Brant's case became a constructive trust in Brant's heirs' case on Brant's death and therefore the statute of limitations began to run toward expiration four years later. Easton's action was begun some five years later and was turned out to be of no account. The demurrer was upheld by the judge.

The original case was one in which a posthumous statement by Brant asserted that he had been kidnapped and forced to sign false papers in the matter by Easton.

Charles Mitchell was attorney for Easton.

Council Goes on Record as to Proposition One

On motion of Councilman Davis the City Council went on record yesterday in opposition to State Proposition No. 1 on the November 6 general election ballot, known as the Boggs reapportionment measure.

The resolution says that by reapportionment under this proposition 42 per cent of the voters of California will elect 70 per cent of the representation in the state senate, and that under the proposition Los Angeles county will be deprived of seven of its eight state senators.

Kobe College's Work to Be Topic

The story of Kobe College for Women and its place among the educational institutions of the world will be told this evening at the Friday Morning Club, where the Kobe College campaign dinner will be held in the dining-room.

The presentation of a quaint Japanese Noh play, "Tsuchigumo," in the Playhouse, by the Kite Noh-shiki, a group of Japanese players, will follow.

A good healthy dinner is much better than a continuous grumble, Canon Ellis N. Gowing.

FAMOUS FRENCH ACTOR HERE

Filmland Gains Notable New Accession

Hollywood Amazes Maurice Chevalier

BRINGING to an end a 6000-mile journey to appear in motion pictures, Maurice Chevalier, stage idol of France, arrived in Los Angeles yesterday from Paris on the Santa Fe Chief.

Greeted at the station by film players and movie dignitaries, the Parisian was whisked away to the Paramount studio, which is to be his workshop for the next few months, and thence to a reception at the Roosevelt Hotel.

Chevalier's first motion picture will be a talking film, "The Innocents of Paris," under the direction of H. d'Abadie d'Arnae.

Chevalier said he feels at home, as Hollywood reminds him of southern France. He also said he was very much impressed by American men.

"They shake your hand firmly and look you right in the eye when they do it," he remarked.

At the reception, attended by Hollywood newspaper correspondents, Chevalier spoke briefly in remarkably good English, expressing thanks for his warm welcome.

He is accompanied by his wife, Yvonne Vallee, star of the French musical comedy stage, whom he married two years ago.

Bean Announces Advantage Given ex-Service Men

War veterans are always welcome to employment in the county, it was announced yesterday by Supervisor Bean after a conference with the board on the question of civil service examination for ex-service men.

"The county was the first to recognize the service of the men who went to the defense of the country," Bean said after the conference. Shortly after the armistice we went on record to allow all ex-service men ten points on all examinations. This still stands good. In addition to this we have decided there should be no age limit to county civil service examinations for war veterans.

"It was at once understood that service men were well trained for all but special expert service, as they were put through an intensive schooling in the Army and Navy."

KIESLING TO LECTURE

Barrett Kiesling, personal representative of Cecil B. De Mille, will lecture on "Motion Picture Publicity" at university colleges, the downtown division of the University of Southern California in the Transportation Building, Seventh and Los Angeles streets, at 7 p.m. today.

Berlin street cars have been equipped with emergency brakes which may be operated by passengers.

Man Dies After Being Hit by Car

Frederick Berger, 45 years of age, of 1241 Kenda street, died at St. Vincent's Hospital yesterday as the result of injuries received when he was struck by an automobile last Sunday night, according to Lincoln Heights police.

The accident occurred, police reported, just after Berger had stepped off a street car at Huntington Drive and Alpha street. The automobile was driven by Simon Lazarus of 4091 West Eighth street, according to the police report. An inquest will be conducted at the County Morgue at 2 p.m. today. Lazarus was not held.

THIEF HIDES IN OFFICE OF HIS VICTIM

Bandit Slugs N. T. Woods and Takes Hand Bag as He Starts Flight

Slugged by a bandit as he entered his office at 247 South Broadway, shortly before 7 a. yesterday, Nelson T. Woods, 63 years of age, was removed to the St. Vincent's Hospital later in the day in a serious condition. Examination at the Georgia-street Receiving Hospital showed that he was suffering from a possible basal skull fracture.

As reported by police, Woods was struck on the head as he stepped into his office by a bandit who had been hiding behind the door. As he fell a black hand bag containing leases and other valuable papers was jerked from his hands. The bandit fled down the stairs. Woods, struggling to his feet, started in pursuit and chased his assailant to Third and Hill streets and there lost sight of him. The victim then took a taxi cab for the hospital. He collapsed on the way.

Cuisine Plea Wins Divorce

One reason why James K. Martin married was to get clear of restaurant food, he told Superior Judge Yankwich yesterday, when applying for a divorce from Mrs. Edith A. Martin.

Through his attorney, Benjamin Lewis, Martin told the court that the first reason behind his marriage, Mrs. Martin let the coffee boil over, burned the oatmeal and let the toast catch fire.

"When I suggested we eat in a restaurant she flew into a rage and threw a pan at me," he declared.

On another occasion, the husband declared, he took a friend home to dinner and his wife spilled salt in the mashed potatoes so that they were ruined. She grew angry, and threw the meal into the garbage can.

So, during most of the six months of their married life, Martin said, he had to eat his meals in restaurants.

Judge Yankwich granted the divorce.

CONTRACT AWARDED

The Board of Public Works yesterday awarded the contract for the improvement of the Vineland avenue and Hill streets to the district of the Griffith Company. The cost of the improvement is \$108,324.45. It provides for concrete pavement, drainage, sanitary sewers, etc.

BOWL WILL HAVE MORE SOLOISTS

Brite Sails for New York to Engage Artists for Coming Season

Last night, the eve of his departure on the steamship California, sailing for New York via the Panama Canal, Raymond Brite, general manager of the Hollywood Bowl, announced he will contract for a greater number of soloists than have before appeared. This is in line with the new policy of the directors whereby the coming season will have fewer conductors and more soloists.

While in New York Brite will again confer with Arthur Judson, manager of the New York stadium concerts, and Leonard Arnsperg, manager of the San Mateo summer concert. These two managers together with Brite perfected a pact last year whereby the three great summer concert enterprises contract jointly for famous European conductors.

Brite also will visit Philadelphia, Boston, Rochester, Detroit, and Chicago to confer with the managers of the symphony orchestras in interest at the day advanced. The Brite will spend his vacation in Havana, returning to his desk during the holidays. During his absence, the Bowl office will be kept open by Mrs. Leland Atherton Irish, general chairman, and Miss Thelma Tarbell, secretary of Mr. Brite.

SILK EXPERT SAYS CHINA TO ADVANCE

Shanghai Visitor Sees Increase in Business Under New Rule

"Four million silkworms munching mulberry leaves in a great feeding room sound exactly like rain on a tin roof," said R. E. Buchanan, a Shanghai far-eastern manager of the United States Testing Company, Inc., who has been connected with the silk business of China for the last twelve years.

Mr. Buchanan, now at the Biltmore, is en route to the Orient where he also represents the Silk Association of America and has been appointed special adviser on silk culture by the Chinese Nationalist government. He is accompanied by G. D. Chernets, expert from the laboratories where Chinese silk is tested.

"We corded \$10,000,000 worth of silk exported to America last year. We do not buy or sell silk but act in an advisory capacity," Mr. Buchanan said.

"China produces more silk than any other nation but the consumption of silk by the Chinese is so great that it creates a deficit for Japan, which is now supplying 90 per cent of the American market. However, I predict advancement of the silk industry in China. American capital and believe that the National party is a reasonable solution of difficulties in China."

WARNER ARRIVES TOMORROW

M. Chevalier May Appear on Stage as Well as Screen; John Boles Signs for Big Role in Fox Picture; Reginald Denny to Star in Sound Film

BY GRACE KINGSLEY

Harry M. Warner, president of Warner Brothers Pictures, Inc., will arrive in Hollywood tomorrow on his first trip to the west coast since the recent purchase by his company of a controlling interest in First National Pictures.

It was Warner who actually brought to completion this gigantic deal, which made of Warner Brothers a \$500,000,000 organization, and which established it in a strategic position of the utmost importance, not only as regards production, but in the control of the picture theaters controlled by First National.

On his arrival here, Warner will confer with Jack L. Warner, Warner's production chief, on the coming season's output, which will include talking pictures starring John Barrymore, Al Jolson, Pauline Frederick, George Arliss, Dolores Costello, Sophie Tucker, Thomas Meighan, and Edw. G. Robinson, Monte Blue and others.

Many newly installed Vitaphone facilities at the Warner studio also will be inspected, including an additional sound stage, the largest ever built, and another Vitaphone stage now under construction.

Following his sale of a play in London, he has now disposed of another to A. H. Woods, called "Three Men in a Boat," which, we are told, has a good movie plot in it.

MAURICE CHEVALIER

That last of France's theatrical world, Maurice Chevalier, who is to appear in Paramount films and who was accompanied by his wife, beautiful Yvonne Vallee, Parisian revue star, received perhaps the warmest welcome yesterday from the press that has ever been accorded a foreign star in our midst. He is blue-eyed and brown-haired, and has a smile like lightning, while his wife looks like Belle Taylor.

It is quite possible that we may see Chevalier on the stage, too, as it is known that several producers in the West are desirous of securing his services in a revue. There is nothing in his contract, declared Albert Kaskas, Paramount official, to prevent Chevalier from appearing on the stage, which would preclude this happy event. His talented wife, likewise, may appear professionally, although she retired from the stage a year ago.

We chatted with this charming person yesterday at the luncheon given in his honor at the Roosevelt, and we found him extremely enthusiastic about talking pictures.

"I am a great fan of the screen," he declared, "although my time was extremely limited. I think he is a great artist. I am looking forward with keen enthusiasm to my first talker, 'Innocents in Paris,' which my old friend, Harry d'Arrest, will direct."

"My wife and I are both keen about the beautiful homes in Hollywood, and we shall take a house soon."

"And your American telephone service—well, we certainly knew about that!"

The French artist is a great friend of Mary Pickford and Douglas Fairbanks and is looking forward to greet them on their return from the East. In the meantime he has been invited to make free use of their gymnasium facilities.

Chevalier will have little time for sightseeing before going to work in his picture, but Albert Kaufman plans to take Chevalier and Mrs. Chevalier on a trip to Palm Springs the next week-end.

Chevalier is the man who put American jazz songs over in Paris, "blending their syncopation," as he put it, "with the French spirit."

"I like Americans," said the artist, "because for one thing, of the way they shake hands. They grasp your hand warmly and look you right in the eye, and you know at once whether they like you or not."

THIEF HIDES IN OFFICE OF HIS VICTIM

Bandit Slugs N. T. Woods and Takes Hand Bag as He Starts Flight

Slugged by a bandit as he entered his office at 247 South Broadway, shortly before 7 a. yesterday, Nelson T. Woods, 63 years of age, was removed to the St. Vincent's Hospital later in the day in a serious condition. Examination at the Georgia-street Receiving Hospital showed that he was suffering from a possible basal skull fracture.

As reported by police, Woods was struck on the head as he stepped into his office by a bandit who had been hiding behind the door. Woods, struggling to his feet, started in pursuit and chased his assailant to Third and Hill streets and there lost sight of him. The victim then took a taxi cab for the hospital. He collapsed on the way.

MEAT MEN TO CONVEENE

Members of the Retail Meat Dealers' Association will be addressed by E. W. Barnhart, chief of the commercial educational service of the Federal Board for Vocational Education, next Thursday at 2 p.m. in the Chamber of Commerce Building. His talk will deal with various methods by which meat dealers may increase their profits.

As a result of conference between the Retail Meat Dealers' Association and the vocational department of the Los Angeles city schools, short courses of instruction in actual meat cutting is given students of the Frank Higgins Trade School, the demonstrations being presented in some meat market. It is to stimulate this relationship between the dealers and the school that Mr. Barnhart has been invited to address the association's meeting.

HOTEL OWNER SUES DAVIS AND OFFICERS

Charging that two police officers entered her hotel at 818 South Spring street while under the influence of liquor and proceeded to break windows and wreck furniture, Mae Foster yesterday filed suit in Superior Court for \$100,000 damages. Chief of Police Davis, Capt. Plummer and Officers Joseph P. Quinn and Ben H. Bertram are named defendants in the action, which was filed by Attorney Griffith Jones.

According to the complaint, Quinn and Bertram entered the hotel last Sunday and proceeded to do the things charged. Chief Davis and Capt. Plummer are named on the theory that Quinn and Bertram were acting under their orders.

DAY SET FOR HOLIDAY WORK ASSIGNMENTS

That Christmas is coming is evident to students of the University of Southern California for assignments of vacation positions to those who wish to work during the holidays are to be made next Thursday, according to Al Behrendt, in charge of the bureau of part-time and full-time employment. Jobs with the Postoffice Department, express companies, department stores, shops and driving delivery cars are to be filled by students and co-eds. Last year 1715 students worked during the Christmas season, arrangements being completed through the bureau of employment in the Student Union at Thirty-sixth street and University avenue.

Egypt's used-car problem is serious.

WARNER ARRIVES TOMORROW

"I like Americans," said the artist, "because for one thing, of the way they shake hands. They grasp your hand warmly and look you right in the eye, and you know at once whether they like you or not."

NEW TRIAL PLA Fails in Poison Liquor Case

Theodore Ray, asserted by police to have mixed a drink of liquor which made Jane Buckmaster, Hollywood film extra, blind, yesterday was denied a new trial on a charge of possession of a quantity of liquor at 737 South Mariposa street. Municipal Judge Northrup, fined Ray \$200. He was convicted by a jury on the possession charge last week.

Ray's trial before a jury in Judge Reed's court on charges of injuring a woman by drinking poison, violation of Sec. 694, Penal Code, was continued until November 14, next. It had been set for yesterday, but was postponed when Deputy City Prosecutor Hornaday told the court that Miss Buckmaster could not be located to testify.

ARGUMENTS END IN LEWIS TRIAL

**Trio Charged With Fraud
May Hear Fates Soon**

**Federal Attorneys Denounce
Three for Oil Deals**

**Case Expected to be Given
Jury at Noon Today**

Arguments of counsel in the trial of S. C. Lewis, former president of the Lewis Oil Corporation and the Julian Petroleum Corporation, and of Jacob Herman, alias Jack Barnett, and C. O. Stappe, were completed last night and United States District Judge Hennings announced that he will charge the jury this morning at 9:30 o'clock. The three are on trial on twelve counts, three of which have been dismissed of using the mails to defraud.

The argument closed with a ringing denunciation of Lewis and his associates by Asst. U. S. Atty. Peterson and Armstrong, in which Mr. Peterson painted Lewis and his associates as men who did not scruple at any misleading promise to obtain money from elderly men and women and hard-working persons.

The defense arguments were closed by an appeal by David Cannon, attorney for Stappe, for an acquittal. He had been preceded by Rex B. Goodsell and A. P. G. Sturges, attorneys for Herman, and by Lewis.

It is charged that the three defendants promised investors unusual profits for a short-time investment in connection with the promotion of the Lewis company and the raising of about \$1,000,000 in the sale of gold notes of the Lewis company.

It is expected that the case will go to the jury about noon today.

AIR ARMADA WILL BOOST PARK BONDS

**Planes Will Carry Party
North to San Francisco
Friday**

An aerial cavalcade in behalf of the State park bond issue will be conducted from Los Angeles to San Francisco Friday, according to the announcement of Henry W. O'Malley, chairman of the bond issue campaign committee.

Mayor Croyer has been invited by the committee to fly to San Diego, to meet Mayor Clark of that city and continue by air to Santa Barbara, where Mayor Finley of the Channel City will join the party to fly on to San Francisco where the members will be greeted by Mayor Rolph.

The mayors will be accompanied by Maj. Burnham of the State Park Commission; C. J. S. Williamson of the Los Angeles Chamber of Commerce, executive secretary of the park bond committee; John T. Austin, representative of the Chamber of Commerce directors, and several members of the Los Angeles City Council in the cavalcade.

The official party will take off from Los Angeles at 8 a.m. Friday morning in a trimotored twelve-passenger Ford plane, accompanied by two Ryan biplanes. The biplanes will offer the park bond organization by James T. Hunt of the Mutual Aircraft Corporation. Returning, the aerial advertisement of the State park financing proposal will arrive here late Saturday afternoon.

Woman Linked to Robbery Plot by "Iron Duke"

Testifying for the State, William Schaeffer, known as the "Iron Duke," yesterday implicated Mrs. Olive Lowe, asserted "society bandit," and Evan B. Sikes in the robbery last year of the bridge party of Mrs. J. M. Cummings at her home on South Mansfield avenue.

Mrs. Lowe, a guest at the party, is asserted to have conspired with Sikes and Schaeffer to rob the other guests at the party. Schaeffer, now under sentence to prison for robbery in connection with the robbery, testified that, according to plans, Mrs. Lowe was to receive 5 per cent of the proceeds of the robbery, together with whatever insurance might be recovered on stolen jewelry. Sikes was to get 25 per cent and the balance was to go to Schaeffer, the latter testified.

The trial will be resumed today.

Council Votes Street Costs

The \$1,762,906 assessments to pay for the proposed opening, widening and straightening of Olive street from Pico street to Twenty-third street were confirmed by the City Council yesterday. The new street is to be eighty feet wide.

The assessment district is from Third street to Twenty-fifth street. Of the total assessments the courts awarded \$1,748,247 for the land to be taken for the new street and the remainder is for the city's legal and engineering expenses.

Coin Mutilator Pleads Guilty

Henry Hilbeck pleaded guilty yesterday in United States District Judge Hennings' court to a charge of mutilating government coins and his case was continued for a week for passing of sentence.

The defendant admitted that he shaved gold off of \$20 gold pieces in order to obtain the filings. He was arrested by W. W. Ashe, agent in charge here for the Treasury Department.

This hard gritty carbon that causes wear

*There's an oil now
that forms none of it!*

You likely think of carbon as it forms in hard layers on piston and cylinder heads—removed only by expensive scraping.

But the tiny abrasive chips of flint carbon that constantly "sandpaper" your bearings, your cylinder walls—every moving engine part—they'll wear your motor out before its time!

And you may be blaming hard carbon to something other than its real cause. It comes from burned motor oil. It causes knocking, you may know. Flakes chip off and get under valves, holding them open to waste power, to burn and warp.

Strangely enough, even the costliest oils often form the most carbon—three to five times as much. And the carbon they form is hard, flint-like—the sort that causes serious damage.

So you can't judge motor oils on "lubricating value" alone. A vital point is the carbon they form—How much? What kind? There is one oil you should know about in this connection.

Soft carbon—and only a little of it

Shell Motor Oil, made by a new refining process, forms less carbon than any oil you can buy. What little it does form is soft, sooty—blows easily away through the exhaust.

It has a remarkably high heat resistance, holds

its sturdy lubricant body under heat that would ruin ordinary oils.

In every way it is a smoother, finer lubricant; you are fully justified in saying that it "adds thousands of miles to the life of your car."

Insist that Shell Motor Oil be put into your car when you refill, when you buy extra oil. You are sure then not only of good lubrication—but freedom from gritty carbon.

Carbon deposited by ordinary oil is hard, flinty; it will tear paper; it will scratch brass, wear away steel

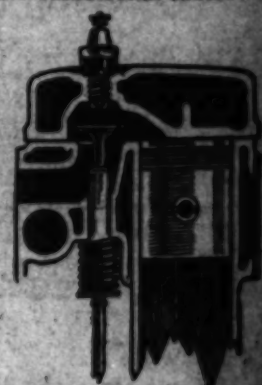

Shell Motor Oil forms only 1/3 to 1/5 the carbon of even the costliest oils—and soft, sooty-like carbon that easily blows away through the exhaust

Four waste oil on a pane of glass—you'll see bits of "slings" from your motor's moving parts. And gritty black carbon that causes wear

A word about the newer models

Today's high-compression motors, with an little as 1/32 inch "clearance" between piston and cylinder head, have no room for hard carbon. A thin layer will cause trouble. Shell Motor Oil, forming less carbon, soft carbon, is almost essential to proper performance in such cars

SHELL MOTOR OIL

Shell 400, the new "dry" gas that burns cleanly and keeps out of the crankcase, is the ideal running mate for Shell Motor Oil. Even Shell Motor Oil can be ruined by "thinning" with a "wet" gas

Halloween Will Rule Day's Menu

The Halloween idea will prevail in decorative motif and in concoction of the dishes to be demonstrated by Mrs. Mabelle (Chef) Wyman, at The Times cooking school this afternoon at 2 o'clock in the Southwest Building, 130 South Broadway.

Saxon rabbit pie is the most entire; baked celery and vegetable loaf are designed to please vegetarian patrons; Halloween cake is the dessert, and the salad, which Mrs. Wyman and assistants will serve at the conclusion of the cookery period, has for its basis cranberries and walnuts.

Two Women's Organizations Indorse Doran

Judge Doran has received the unanimous indorsement of two women's organizations of his candidacy for re-election to Superior Court. One is the American University Study Club, Mrs. Ruth W. Green, president, and Anna H. Gallery, secretary. The other is the Ladies' Auxiliary of the Pacific Electric Club.

Ex-Bank Clerk Admits Fraud

James Greenfield, former assistant cashier of the South Pasadena National Bank, yesterday pleaded

guilty in United States District Judge Hennings' court to charges of misapplication of funds and false entries. The actual amount involved was about \$400, but the banker's activities were said to have involved several thousand dollars. The case was continued for a week for the passing of sentence.

BOWEN CUP DEBATE PRELIMINARY TODAY

Preliminary eliminations for the annual Bowen Cup debating contest will be held this afternoon on the campus of Southern California University. The Kellogg peace treaty will report to the debate office and be assigned a specific topic on which he will base a five-minute speech. The speech will be delivered two hours later. Nine contestants will be chosen. These nine will compete for the six silver cups donated by Judge William Bowen as a final contest, the date of which has not yet been announced.

Council Against Age-Limit Plan

The City Council went on record yesterday as being opposed to any age limit being set for men entering the city's service as street sweepers and other labor classifications. The applicants are required to pass a physical examination.

ILLNESS WRECKS HOME

If a wife falls ill, calls in an attractive young woman as nurse and the husband makes love to the nurse, this constitutes cruelty, and is grounds for a divorce, according to Superior Judge Engs, who granted a decree to Mrs. Ruby Robinson.

In her complaints against Harry Robinson, Mrs. Robinson told the court yesterday that she became very ill and had to have a nurse. The nurse, she said, was an attractive woman and her husband began making love to her.

POINT FERMIN CLIFFS INVADED BY SCHOLARS

The Point Fermin cliffs swarmed yesterday with 800 pupils from the elementary schools of the eastern district of the city on their semi-annual nature-study excursion. The children made the trip to the harbor in special Pacific Electric cars and after a survey of Point Fermin's botanic and marine life oddities, followed by lunch in the park above, inspected the shipping at the port.

PROTESTS SET

Protests against the proposed improvement of West Boulevard from Sixtieth street to Florence avenue will be heard by the Council on November 14.

Eatmore Cranberries

Serve Mock Cherry Pie

Recipe—Pie crust: 3 cups cranberries, 1 cup seeded raisins, 1 1/4 cups sugar, 3/4 cup water, 2 tablespoons flour, 1/2 teaspoon salt, 1/2 teaspoon almond or vanilla extract. Chop cranberries; add other ingredients. Line a deep pie plate with pie crust; add filling; cover with

an upper crust. Bake in a hot oven for 45 minutes. Serves 6 to 8.

This new breed of corn has completely won the children's favor

NOTAS TELEGRAFICAS

Los Soviets Van a Vender en Berlin

Los Soviets Artísticos Rusos

BERLIN, Octubre 29.—Encomendados por el gran duque Constantino, refugiado ruso, los aristócratas del país de los mares han emprendido viaje a Berlin desde todas partes de Europa. A fin de examinar el catálogo de los tesoros artísticos soviéticos, que Rusia va a subastar el 6 y 7 de Noviembre en las salas de almoneda de la casa de la Leica, que son las más importantes de Berlin.

Añoche se celebró un mitin de independencia en la residencia particular de uno de los más distinguidos rusos blancos que viven en Berlin, y a él concurrieron, entre otras personas, el gran duque Constantino, el príncipe Felix Youssoupoff, la condesa Colopug, la señora Skurupadski, y la princesa Cotchubey.

Lograron los reunidos a la conclusión de que la mayoría de las obras de arte que van a sacarse a remate eran propiedad particular de los ciudadanos rusos y de sus amigos.

La asamblea resolvió dar pasos energéticos para conseguir de los tribunales alemanes un auto inhibitorio provisional, y también para reclamar judicialmente a los subastadores el resto de los bienes robados.

"Caso que los tribunales alemanes desestiman nuestras gestiones", dijo hoy en la noche uno de los indignados reclamantes, "irnos a la suya, y meteremos allí tal escándalo, que resulte imposible llevarla a cabo."

Ya para terminarse el mitin, hubo un dramático altercado entre dos reclamantes rivales de unos mismos artículos. Dos concubinas enfurecidas llegaron casi a las manos, porque ambas aseguraban ser dueñas únicas de un cuadro listado en el catálogo.

En Egipto por Gran Mayoria el Doctor Colindres

TEGUIGALPA (Honduras) Octubre 29.—Los últimos resultados arrojan en las elecciones generales de ayer un triunfo de voto en favor del candidato de oposición a la presidencia. Estimase que el doctor Vicente Mejía Colindres ha sido elegido por una mayoría de más de 14,000 votos.

El doctor Colindres fue el candidato que quedó a la cabeza liberal republicana, después de que se hubieron retirado de la lucha los candidatos de cada uno de los partidos opositores.

El general Tiburcio Carías era el candidato de los conservadores, y tanto por el hecho de que muchos liberales están en el destierro, como por otras circunstancias, se veía claro que el general Carías ganaría las elecciones. La votación probó lo contrario.

Por primera vez en la historia de Honduras ha dejado de haber disturbios en las elecciones. Hay noticias de que reinó el orden en todas partes del país.

Sociedad de Amigos de la Antropología

BALTIMORE, Octubre 29.—El gobernador del principio esta noche

A MODERN MIRACLE

When Daniel Yovetich grows up he will be able to relate a thriller from his own experience that will be just about the last word in narrow escapes.

Dan is the 14-month-old son of Mr. and Mrs. Michael Yovetich of Kansas City, Kan. One day last week he was playing in the front yard of his home on North First street. The Missouri Pacific tracks pass near the Yovetich home.

On the other side of the tracks small Dan noticed a group of children playing. Of course, his first thought was to go over and join them. So off he started, and crawled upon the tracks. Tired from his exertion he sat down between the rails. His mother was busy with her housework.

Down the track a locomotive whistle was heard. Two or three neighbor women gazed with horror then screamed as they saw the baby's danger. A negro workman a block down the track hearing the screams, saw the situation at a glance, and shouted and waved to attract the attention of the engineer on the coming engine.

The engineer saw and understood too. There was a screeching of the brakes and wheels sliding along on the rails. Horror struck onlookers covered their eyes. The engine came to a stop. Dan's mother rushed out frantic with fear over what she thought had happened.

Meanwhile the baby was all unconscious of what was transpiring. Raising up to see what the commotion was all about he bumped his head on something hard and began to cry. The something hard was the underside of the engine's pilot which had come to a stop directly over the boy. The bump on his head was all the hurt Danny suffered. His mother soon had him consoled though she was sobbing bitterly herself, but now out of joy and gratitude.

Meanwhile the engineer and fireman had crawled down out of the cab fearing the worst. When they saw the boy was safe in his mother's arms they breathed again and their hearts needed out of their throats back into their proper places.

Danny will be a good deal older boy before he gets as far as the railroad track again.—[Capper's Weekly.]

SENTECE SERMONS

To the crook, but it does not take it long to wear thin.

To the fool, but he soon scatters it again.

To the ignorant, but they learn from it or lose it.

To the wrong man by accident, but it never brings any real happiness.

To the conceited man, but that may prove that his conceit was justified.

To the worker, but he is never long satisfied.

To the Godless man, but it is not the success that can endure eternally.—[Buffalo Courier-Express.]

Punch is printing some flowers of American speech. Here are two examples:

Fair New Yorker (disappointed in celebrity who has taken her to dinner): Say, you're rather a dim bulb tonight, aren't you?

Fascinating American (to partner after a delightful dance): Gosh! That was great. Now we'd better part our frames a spell after that.—[Boston Transcript.]

All models, except the Abbey, Jr., equipped with the "250" tube and phonograph jack.

THE ABBEY, Jr.
Constant volume cabinet with lovely cutting finish. For any standard loudspeaker.
Price, without tubes, \$135

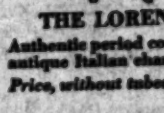

THE AVON
This compact console of genuine antique walnut harmonizes with any decoration and furnishing.
Price, without tubes, \$260

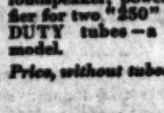

THE WARWICK
In this distinctive Splitdorf model there's an air of quality pervading in a really priced at low.
Price, without tubes, \$325

THE LORENZO
Antique period console of antique Italian design.
Price, without tubes, \$390

THE COMO
Italian Antique Model in walnut. Double dynamic loudspeaker. Double "250" HEAVY DUTY tubes—a Senior model.
Price, without tubes, \$490

THE SALEM
Early American secretary in cutlery mahogany. Double dynamic loudspeaker, power amplifier for two "250" HEAVY DUTY tubes—Senior model.
Price, without tubes, \$575
Bookcase top, extra, \$150

THE SALEM
Early American secretary in cutlery mahogany. Double dynamic loudspeaker, power amplifier for two "250" HEAVY DUTY tubes—Senior model.
Price, without tubes, \$575
Bookcase top, extra, \$150

TROUBLE FOR FISH

Your troller squats in a boat, expectively uncomfortable, continually being poked and poked by a creature that he cannot see, and he is not even aware of it.

Barber, whose bear-killing record has reached such a high point that figures seem unbelievable, brought his first bruise of the past several months into Waycross the other day.

Bearers on the Cowhouse have suffered heavy losses during the past few months and the bear hunt was organized at the request of J. J. Wilder, apaiser. The hunt lasted only two hours and a half. Barber's dogs treed the animal within a short time after they were put on

At last—faithful reproduction! Music as colorful as it is played and broadcast... music from the deep basses to the high pitched fifes, comes to you—over the new Splitdorf Radio.

Why? Because of its new, powerful "250" HEAVY DUTY Tube. A tube so constructed that it reproduces each individual tone clearly and distinctly. Reproduces notes that have always been lost to radio before. Actually finds them for you by its increased power, seven times that of others.

The "250" HEAVY DUTY Tube, with Splitdorf's Over-sized Dynamic Speaker, makes more to you. These improvements bring you new power in reception. Exquisite reproduction—not merely some of the band's music, but all of it. For, "as the band plays, so plays the Splitdorf".

Listen to a Splitdorf. It will say things words can never express. Compare a Splitdorf with any other radio—right in your own home. Then you'll know! Ask your dealer to bring a Splitdorf to you for demonstration. He will gladly do so, with no expense to you.

CHECK WRITERS WARNED

Precautions against loss through carelessly written bank checks are given by Police Commissioner William F. Russell of Chicago.

"Many cases reported of check-raiding show that the word 'pay' has been made to call for thousands by the forger writing 'thous' before it. Write your figures close together and in a position where no numeral can be placed before or after them," he said.

"Always start the wording on a check at the extreme left-hand margin, write close together, and draw a heavy line to the word 'dollars.' Whenever you leave a particle of space where an addition or change can be made you lay yourself wide open for an expert forger."

"A check containing the word 'eight' may be easily altered by adding the letter 'y' after the 't' and by the addition of a numeral to the figure '8' and so on. Always make your signature clear and distinct. An indistinct signature is the easiest to forge."

"Many bank accounts have been entirely wiped out by carelessness. Your greatest protection against

A GOAT AND FROG INDUSTRY

Alva Griffith of Orange, who was assigned the duty of breeding goats and buffaloes for the Orange-Cameron Land Company on the company's marsh holdings in Cameron parish, has started with a herd of twenty-four goats on an island containing about 150 acres of land.

The land is surrounded by water and floating turt that form a perfect barrier to prevent the escape of goats or to admit other animals that might harm the goats.

The natural growth of the island includes that upon which the goats thrive. In addition to the grasses there are all kinds of briars that please the appetite of the goat. Buffaloes of all sizes are being caught in various sections of the country and put in the canals and bayous that traverse the marsh holdings.

The fact that there were no buffaloes in these waters heretofore was due to salt water that entered prior to the building of levees and the cutting of canals through that territory.—[Houston Post-Dispatch.]

forgeries is to keep the above precautions in mind at all times.—[Chicago News.]

A DIPLOMAT FROM RICHMOND

A band of gypsies visited Richmond Wednesday. While here the feminine members of the band called at business houses and offered to tell men's fortunes at \$1 a head. One of the prettiest and most loudly dressed of the females tackled Uncle Tyre Martin, but he strenuously objected. A crowd of people to clip in and pay the \$1, but Uncle Tyre said he was afraid if the lady had got started she might have told a few things on Charley Spear and he didn't want to see his friend embarrassed.—[Richmond (Mo.) Progress.]

HIGHBROWS AS VOTERS

Exclusive of the office-holders, most of the inmates of "Who's Who" are highbrows, or are so considered, and it is the exceptional highbrow that knows how to vote properly, much the less how to advise others about voting.—[Charleston News and Courier.]

This image shows a vertical strip of a film negative. The background is a dark, textured grey. Along the right edge, there is a series of white, semi-circular perforations, which are the sprocket holes of the film. The left edge of the strip shows the rough, uneven texture of the film's edge.

JAIL TO YAWN ON HALLOWEEN

Hoodlums Will be Housed in
Hoosgow in Hurry

Chief Davis Issues Orders to
Prevent Hoydenism

Practical Jokers Warned to
Watch Their Steps

Practical jokers with a penchant for uprooting trees, tearing down fences and marring peace of glass; and humorists who delight in tossing pepper, flour or snuff in the faces of unsuspecting passers-by on Halloween will have a rare opportunity to do their giggling in a steel tank if Los Angeles police lay their hands on them.

Chief of Police Davis, in his annual Halloween fiat, has declared there is nothing funny in any of these practices and issues fiat orders for the suppression of anything saving of hoodlums to-morrow night. His order, issued to all division commanders and officers reads in part, as follows:

"Your attention is again called to the fact that Halloween is a holiday each year and the citizens of Los Angeles many thousands of dollars, and you are instructed to take every possible precaution to protect property and prevent disorder. You are, furthermore, instructed to observe carefully conditions in your divisions, locating points therein where there were disturbances or property losses last year. It will then be your duty to have particular attention given to locations where it seems most likely that trouble will occur.

"Particular attention this year must be given to suppressing the use of fireworks, a destructive practice that has been adopted by hoodlums in this city within the last few years, and you all know school-houses are considered to be particularly likely spots for mischief by the youngsters.

"The throwing of feather ticks, snuff, flour or any other device harmful to persons or property will not be tolerated."

SCHO ANSWERS

"The tourists, having hunched at the hotel, climbed to the top of the famous Echoing Mountain. There they saw an old man sitting on a rock, a telescope a yard long in his hands. Every few minutes he would let out a series of loud whoops.

"The punned tourists asked and answered for some time. Then they went up to the old man, and one of them said:

"Why do you keep on looking through your telescope and then yelling as if you were hurt?"

"The old man answered impatiently:

"If you talk to me, you'll distract my attention and I'll lose my job. I'm the echo for this 'ere 'ol' 'Awwers, London."
